

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

UBS (Lux) Equity Fund - Global Multi Tech, class (EUR hedged) P-acc (ISIN: LU0804734787), EUR

a sub-fund of UBS (Lux) Equity Fund

This fund is managed by UBS Fund Management (Luxembourg) S.A., a part of UBS AG.

Objectives and investment policy

The fund assets are mainly invested in stocks of companies that are benefiting from the growing demand for technology in all sectors. The fund's investments are selected from all countries, and the fund's positions are very actively managed.

The portfolio manager allocates the assets according to a thorough investment process based on fundamental research. The stock selection is based on the assessment of the opportunities associated with the respective risks. It is possible that fund assets could temporarily be concentrated in particular areas.

Investors may demand to redeem their units from the investment company on any normal bank business day.

Fund income is not paid out, but instead will be reinvested.

This share class is currency-hedged meaning that, using derivatives, the base currency of the fund is to a large extent hedged into the share class' currency.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

More about the risk category

- The risk category is based on the fund's return volatility over the last five years. If the fund has less than 5 years' history, estimated volatility is used for the missing period.
- The fund is in category 6 because the volatility of its past returns has been very high.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.
- The lowest risk category does not mean 'risk free'.

Further material risks

- No capital guarantee exists for this product, so investors could lose the whole of their investment.
- A portion of the fund is invested in less liquid investments where bid-ask spreads and the price impact of trading might increase significantly under adverse market conditions.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	6.00%
Exit charge	2.00%
Conversion charge	3.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	2.09%
Charges taken from the fund under certain specific conditions	
Performance fee	none

The entry charge and exit charge shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The ongoing charges are estimated in the absence of historical data. As soon as available, the ongoing charges are reported and may differ from the estimate. They generally excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information, please see the charges section of the fund's prospectus, which is available at www.ubs.com/funds.
