Features of the Company

UBS (Lux) Strategy SICAV (hereinafter called the "Company") offers investors various subfunds ("umbrella construction") which invest in accordance with the investment policy described in the sales prospectus. The specific details on each subfund are defined in the sales prospectus, which will be updated on the inception of each new subfund.

The Company was established on 24 May 1993 as an open-ended investment fund in the form of a SICAV pursuant to Part I of the Luxembourg Law of 30 March 1988 on undertakings for collective investment and adapted in October 2006 in line with the requirements of the Law of 2002. As of 1 July 2011, the Company shall be subject to the amended Law of 17 December 2010. With effect from 15 April 2011, the Company has appointed UBS Fund Management (Luxembourg) S.A. as its Management Company.

The consolidated version is held by the Commercial and Company Register (Registre de Commerce et des Sociétés) in Luxembourg for inspection. Any amendments are published by means of a notice of deposit in the "Mémorial", in a Luxembourg daily newspaper and, if necessary, in the official publications of the individual distribution countries. Amendments become legally binding following their approval by the General Meeting of Shareholders.

As at 31 May 2023, the following subfunds are active:

UBS (Lux) Strategy SICAV	Currency of account
- Dynamic Income (USD)	USD
- Fixed Income Sustainable (EUR)	EUR

- Multi Asset Emerging Markets Dynamic (USD)	USD
- Systematic Allocation Portfolio Defensive (USD)	USD
- Systematic Allocation Portfolio Dynamic (USD)	USD
- Systematic Allocation Portfolio Medium (USD)	USD
- Xtra Yield (EUR)	EUR

Information on which share classes are available for which subfund can be obtained from their Administrative Agent or at www.ubs.com/funds.

Only registered shares are issued.

The following share classes are currently available:

"P"

Shares in classes with "P" in their name are available to all investors. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"N"

Shares in classes with "N" in their name (shares with restrictions on distribution partners or countries) are issued exclusively through distributors authorised by UBS Asset Management Switzerland AG and domiciled in Spain, Italy, Portugal and Germany, or in other distribution countries insofar as this has been decided by the Company. No entry costs shall be charged for these classes, even if they have additional characteristics. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"K-1"

Shares in classes with "K-1" in their name are available to all investors. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 5 million, BRL 20 million, CAD 5 million, CHF 5 million, CZK 100 million, DKK 35 million, EUR 3 million, GBP 2.5 million, HKD 40 million, JPY 500 million, NOK 45 million, NZD 5 million, PLN 25 million, RMB 35 million, RUB 175 million, SEK 35 million, SGD 5 million, USD 5 million or ZAR 40 million.

"K-B"

Shares in classes with "K-B" in their name are exclusively reserved for institutional investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised distribution partners on investing in one or more subfunds of this umbrella fund. The costs for asset management are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100,

CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"K-X"

Shares in classes with "K-X" in their name are exclusively reserved for investors who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"F"

Shares in classes with "F" in their name are exclusively reserved for UBS Group AG affiliates. The maximum flat fee for this class does not include distribution costs. These shares may only be acquired by UBS Group AG affiliates, either for their own account or as part of discretionary asset management mandates concluded with UBS Group AG companies. In the latter case, the shares will be returned to the Company upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"Q"

Shares in classes with "Q" in their name are exclusively reserved for financial intermediaries that (i) make investments for their own account, and/or (ii) receive no distribution fees in accordance with regulatory requirements, and/or (iii) can only offer their clients classes with no retrocessions, where these are available in the investment fund in question, in accordance with written agreements or agreements on fund savings plans concluded with their clients. Investments that no longer meet the above conditions may be forcibly redeemed at the prevailing net asset value or exchanged for another class of the subfund. The Company and the Management Company are not liable for any tax consequences that may result from a forcible redemption or exchange. The smallest tradable unit of these shares is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100,

BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1'000.

"I-A1"

Shares in classes with "I-A1" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-A2"

Shares in classes with "I-A2" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000. The minimum subscription amount for these shares is CHF 10 million (or foreign currency equivalent). Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one of its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

"I-A3"

Shares in classes with "I-A3" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500,

RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000. The minimum subscription amount for these shares is CHF 30 million (or foreign currency equivalent). Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners) or on the written approval of UBS Asset Management Switzerland AG (or one of its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

"I-B"

Shares in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. A fee covering the costs for fund administration (comprising the costs of the Company, the administrative agent and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"I-X"

Shares in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2'000, DKK 700, EUR 100, GBP 100, HKD 1'000, JPY 10'000, NOK 900, NZD 100, PLN 500, RMB 1'000, RUB 3'500, SEK 700, SGD 100, USD 100 or ZAR 1'000.

"U-X"

Shares in classes with "U-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more subfunds of this umbrella fund. The costs for asset management, fund administration (comprising the costs of the Company, the administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. This share class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Company decides otherwise, the initial issue price of these shares amounts to AUD 10'000, BRL 40'000, CAD 10'000, CHF 10'000, CZK 200'000, DKK 70'000, EUR 10'000, GBP 10'000, HKD 100'000, JPY 1 million, NOK 90'000, NZD 10'000, PLN 50'000, RMB 100'000, RUB 350'000, SEK 70'000, SGD 10'000, USD 10'000 or ZAR 100'000.

Additional characteristics:

Currencies

The share classes may be denominated in AUD, BRL, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, NZD, PLN, RMB, RUB, SEK, SGD, USD or ZAR. For share classes issued in the currency of account of the subfund, this currency will not be included in the share class name. The currency of account features in the name of the relevant subfund.

"hedged"

For share classes with "hedged" in their name and with reference currencies different to the subfund's currency of account ("classes in foreign currencies"), the risk of fluctuations in the value of the reference currency is hedged against the subfund's currency of account. This hedging shall be between 95% and 105% of the total net assets of the share class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of share classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits.

The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund's currency of account.

"BRL hedged"

The Brazilian real (ISO 4217 currency code: BRL) may be subject to exchange control regulations and repatriation limits set by the Brazilian government. Prior to investing in BRL classes, investors should also bear in mind that the availability and tradability of BRL classes, and the

conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in Brazil. The risk of fluctuations is hedged as described above under “hedged”. Potential investors should be aware of the risks of reinvestment, which could arise if the BRL class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section “Liquidation of the Company and its subfunds; merger of subfunds” of the sales prospectus.

“RMB hedged”

Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People's Republic of China (the “PRC”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Shares in classes with “RMB hedged” in their name are shares whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors’ investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund’s ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Company.

The risk of fluctuations is hedged as described above under “hedged”.

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a share class and/or the subfund in accordance with the section “Liquidation of the Company and its subfunds; merger of subfunds” of the sales prospectus.

“PF”

Share classes with “PF” in their name differ from the other share classes to the extent that in addition to the flat fee, a performance fee is paid to the Portfolio Manager / Investment Advisor if the conditions set out in the section “Expenses paid by the Company” of the sales prospectus are met.

“acc”

The income of share classes with “-acc” in their name is not distributed unless the Company decides otherwise.

“dist”

The income of share classes with “-dist” in their name is distributed unless the Company decides otherwise.

“qdist”

Shares in classes with “-qdist” in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) (“capital”). Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from

the sale of shares. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

“mdist”

Shares in classes with “-mdist” in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of shares. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation. The maximum entry costs for shares in classes with “-mdist” in their name are 6%.

“UKdist”

The aforementioned share classes can be issued as those with “UKdist” in their name. In these cases, the Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the share classes are subject to these reporting fund rules. The Company does not intend to make taxable values for these share classes available in other countries, as they are intended for investors whose investment in the share class is liable to tax in the UK.

“2%”, “4%”, “6%”, “8%”

Shares in classes with “2%” / “4%” / “6%” / “8%” in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors who wish for more stable distributions, unrelated to past or expected returns or income of the relevant subfund.

Distributions may thus also be made from the capital. Distributions out of capital result in the reduction of an investor’s original capital invested in the subfund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of

the net asset value per share of the subfund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Investors should consult qualified experts for tax advice regarding their individual situation.

“seeding”

Shares with “seeding” in their name are only offered for a limited period of time. Further subscriptions are prohibited after the end of this period, unless otherwise decided by the Company. However, shares can still be redeemed in accordance with the conditions for share redemptions. Unless otherwise decided by the Company, the smallest tradeable unit, the initial issue price and the minimum subscription amount shall correspond to the characteristics of the share classes listed above.

The entirety of the individual subfunds’ net assets forms the total net assets of the Company, which corresponds, at all times, to the share capital of the Company and consists of fully paid in and non-par-value shares (the “shares”).

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares in the respective subfunds. Shares of a particular subfund carry the right of one vote per share held when voting at meetings affecting this subfund.

The Company forms a legal entity. With respect to the shareholders, each subfund is regarded as being independent from the others. The assets of a subfund can be used to offset only the liabilities which the subfund concerned has assumed.

The Company is empowered at all times, to liquidate subfunds and/or to establish new subfunds as well as different share classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional share class is launched.

The Company is unlimited with regard to duration and total assets.

The financial year of the Company ends on 31 May.

The ordinary general meeting takes place annually on 30 November, at 11:00 a.m. at the registered office of the Company. If 30 November happens to be no working day in Luxembourg, the ordinary general meeting takes place on the next following working day.

Information on whether a subfund of the Company is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website (www.bourse.lu).

The issue and redemption of shares of the Company are subject to the regulations prevailing in the country concerned.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the Company and the depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

Audit report

To the Shareholders of
UBS (Lux) Strategy SICAV

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of UBS (Lux) Strategy SICAV (the “Fund”) and of each of its sub-funds as at 31 May 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 May 2023;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the year then ended;
- the combined statement of changes in net assets for the Fund and the statement of changes in net assets for each of the sub-funds for the year then ended;
- the statement of investments in securities and other net assets of each of the sub-funds as at 31 May 2023; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund delivered an income in line with its objective, however total performance was negative due to the rise in interest rates and overall backdrop of equities and fixed income. This caused our holdings in value-driven equities to be one of the main drivers of negative returns. Riskier parts of the credit market were also affected by a broader risk-off mood in markets. Despite China's reopening, performance from emerging market bonds remained unfavorable.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. Global bond markets have undergone one of the worst years on record amid more hawkish signals from both the Fed and the European Central Bank. Riskier parts of the credit market were also affected by a broader risk-off mood in markets. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. Global bond markets have undergone one of the worst years on record amid more hawkish signals from both the Fed and the European Central Bank. Riskier parts of the credit market were also affected by a broader risk-off mood in markets. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. High yield performed particularly poorly as global bond markets have undergone one of the worst years on record amid more hawkish signals from both the Fed and the European Central Bank. Riskier parts of the credit market, such as higher yielding corporate bonds, were also affected by a broader risk-off mood in markets. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. High yield performed particularly poorly as global bond markets have undergone one of the worst years on record amid more hawkish signals from both the Fed and the European Central Bank. Riskier parts of the credit market, such as higher yielding corporate bonds, were also affected by a broader risk-off mood in markets. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. High yield performed particularly poorly as global bond markets have undergone one of the worst years on record amid more hawkish signals from both the Fed and the European Central Bank. Riskier parts of the credit market, such as higher yielding corporate bonds, were also affected by a broader risk-off mood in markets. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle.

¹ Due to the recent launch, there is no data for the calculation of the performance available.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

In the last months of the financial year US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Since the day of inception (April 2023) the fund generated negative performance. Emerging Markets Equities was one of the largest negative contributors, followed by Emerging Markets High Yield and Commodities. The main reasons were the negative market effect driven by rising interest rates. Riskier parts of the credit market were also affected by a broader risk-off mood in markets. Despite China's reopening, performance from emerging markets remained unfavorable.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Global markets have undergone a significant backdrop amid rising interest rates. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle. This caused our holdings in value-driven equities to be one of the main drivers of negative returns. Alternatives had a slightly positive performance, strongly outperforming traditional asset classes.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

The performance data were not audited.

The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. High yield performed particularly poorly as global equity markets have undergone a significant backdrop amid rising interest rates. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle. This caused our holdings in value-driven equities to be one of the main drivers of negative returns. Alternatives had a slightly positive performance, strongly outperforming traditional asset classes.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. Global equity markets have undergone a significant backdrop amid rising interest rates. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle. This caused our holdings in value-driven equities to be one of the main drivers of negative returns. Alternatives had a slightly positive performance, strongly outperforming traditional asset classes.

Historical performance is no indicator of current or future performance.
The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.
The performance data were not audited.
The subfund has no benchmark.

Report of the Portfolio Manager

Rising inflation fueled by supply chain disruption and high energy prices continued to weigh on the economy driving central banks to pursue interest rates hikes at an almost unprecedented speed. Equities and fixed income therefore fell in tandem until November 2022, when prices finally stabilized. The contractionary monetary policy also triggered local banking issues, forcing regulators to take measures to restore public confidence. Despite China's re-opening, markets were held back by a variety of risks including the US debt ceiling, the potential for further Federal Reserve rate hikes following stubbornly high inflation data, and signs that China's growth was not picking up as fast as expected. In the last months of the financial year, US equities rallied based on expectations that interest rates would peak and optimism around the Artificial Intelligence theme, while bond markets remained more pessimistic rather pricing in a recession.

Over the financial year, from 1 June 2022 to 31 May 2023, the subfund generated negative performance. High yield corporate bonds performed particularly poorly as riskier parts of the credit market were also affected by a broader risk-off mood in markets. Global equity markets have undergone a significant backdrop amid rising interest rates. The performance gradually stabilized from November, bolstered by growing confidence that central banks are nearing the end of the rate hiking cycle. Alternatives had a slightly positive performance, strongly outperforming traditional asset classes.

Notes to the Financial Statements

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the Net Asset Value

The net asset value and the issue, redemption and conversion price per share of each subfund or share class are in the currency of account of the subfund or share class concerned and are calculated every business day by dividing the total net assets of the subfund attributable to each share class by the number of shares issued in this share class of the subfund.

In this context, "business day" refers to normal banking days in Luxembourg (i.e. each day on which the banks are open during normal business hours) with the exception for 24 and 31 December, individual, non-statutory rest days as well as days on which exchanges in the main countries in which the subfund invests are closed or 50% or more of the subfund's investments cannot be adequately valued.

The percentage of the net asset value attributable to each share class of a subfund changes each time shares are issued or redeemed. It is determined by the ratio of the shares issued in each share class to the total number of shares issued in the subfund, taking into account the fees charged to that share class.

b) Valuation principles

- Liquid funds – whether in the form of cash, bank deposits, bills of exchange and sight securities and receivables, prepaid expenses, cash dividends and declared or accrued interest that has not yet been received – are valued at their full value unless it is unlikely that this value will be fully paid or received, in which case their value is determined by taking into consideration a deduction that seems appropriate in order to portray their true value.
- Securities, derivatives and other investments listed on a stock exchange are valued at the last-known market prices. If these securities, derivatives or other assets are listed on several stock exchanges, the latest available price on the stock exchange that represents the major market for these investments will apply.
In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities

traders exists with pricing in line with the market, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange but which are traded on another regulated market which operates regularly and is recognised and open to the public are valued at the last available price on this market.

- Securities and other investments that are not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Derivatives not listed on a stock exchange (OTC-derivatives) are valued on the basis of independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation obtained will be verified by means of calculation methods recognised by the Company, based on the market value of the underlying instrument from which the derivative originates.
- Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCI) are valued at their last-known net asset value. Certain units or shares of other UCITS and/or UCI can be valued on the basis of an estimation of their value that has been provided by reliable service providers, which are independent from the portfolio manager or the investment advisor (value estimation).
- Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower.
Interest income earned by subfunds between the order date concerned and the value date concerned is included in the valuation of the assets of the subfund concerned. The asset value per share on a given valuation date therefore includes projected interest income.
- Securities, money market instruments, derivatives and other assets denominated in a currency other than the reference currency of the relevant subfund and not hedged by foreign-exchange transactions, are

valued at the middle-market rate of exchange (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.

- Fixed-term deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations (based on models and market data made available by Bloomberg), and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

The Company is authorised to apply other generally recognised and auditable valuation criteria in good faith in order to achieve an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

In extraordinary circumstances, additional valuations can be carried out over the course of the day. These new valuations will then be authoritative for subsequent issues and redemptions of shares.

Due to fees and charges as well as the buy-sell spread for the underlying investments, the actual costs of buying and selling assets and investments for a subfund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per share. These costs have a negative effect on the value of a subfund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per share.

Shares are generally issued and redeemed based on a single price: the net asset value. To reduce the effects of dilution, the net asset value per share is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the subfund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in any subfund or class of a subfund on a particular valuation day, the unadjusted net asset value per share is applied. The circumstances in which such a dilution adjustment takes is made are determined at the discretion of the Board of Directors. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of shares in the relevant subfund. The Board of Directors may carry out a dilution adjustment if, in its view, the existing shareholders (in the case of subscriptions) or remaining shareholders (in the case of redemptions) could be put at a disadvantage. The dilution adjustment may take place if:

- (a) a subfund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a subfund records a considerable volume of net subscriptions relative to its size;
- (c) a subfund shows a net subscription or net redemption position on a particular valuation day; or
- (d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the shareholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per share depending on whether the subfund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the spreads of buy and sell prices. In particular, the net asset value of the respective subfund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the subfund, and (iii) the estimated bid-ask spread for the assets in which the subfund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. The adjustments are generally limited to a maximum of 2% of the prevailing net asset value per share at the time. The Board of Directors may decide to temporarily apply a dilution adjustment of more than 2% of the prevailing net asset value per share at the time in respect of any subfund and/or valuation date in exceptional circumstances (e.g. high market volatility and/or liquidity, exceptional market conditions, market disruption, etc.), provided the Board of Directors can justify that this is representative of the prevailing market conditions and that it is in the best interest of the shareholders. This dilution adjustment will be calculated in accordance with the method determined by the Board of Directors. Shareholders will be informed via the usual communication channels when the temporary measures are introduced and when they end.

The net asset value of each class of the subfund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms. The dilution adjustment is made at subfund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

For all subfunds the Swing Pricing methodology is applied.

If there were Swing Pricing adjustments to the net asset value at the end of the financial year, this can be seen from the three year comparison of the net asset value information of the subfunds. The issue and redemption price per share represents the adjusted net asset value.

c) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

d) Valuation of financial futures contracts

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

e) Valuation on options

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. Options which are not listed on an official stock exchange (OTC-options) are marked to market based upon daily prices obtained from OV – option valuation in Bloomberg and checked against third party pricing agents. The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

Options are included in the investments in securities.

f) Net realized gains (losses) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

g) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

h) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

i) "Mortgage-backed securities"

The Company, in accordance with its investment policies, may invest in mortgage-backed securities. A mortgage-backed security is a participation in a pool of residential mortgages which is consolidated into the form of securities. The principal and interest payments

on the underlying mortgages are passed through to the holders of the mortgage-backed security of which the principle reduces the cost basis of the security. The payment of principal and interest may be guaranteed by quasi-governmental agencies of the United States. A gain or loss is calculated on each paydown associated with each payment of principal. This gain or loss has been included in "Net realized gain or loss on sales of securities" in the statement of operations. In addition, prepayments of the underlying mortgages may shorten the life of the security, thereby affecting the Company's expected yield.

For "Mortgage-backed securities", if the factor to be applied to the nominal of the security is greater than one at the valuation date, then the nominal shown in the financial statements is adjusted to reflect this factor. In the other cases the nominal shown reflects the effect of a factor equal to one.

j) Combined financial statements

The combined financial statements are expressed in EUR. The various items of the combined statement of net assets and the combined statement of operations as of 31 May 2023 of the Company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the exchange rates prevailing at closing date.

The following exchange rates were used for the conversion of the combined financial statements as of 31 May 2023:

Exchange rates

EUR 1 = CHF	0.974575
EUR 1 = USD	1.066100

k) Receivable on securities sales,

Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

l) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

m) Swaps

The Company may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. The calculation is

based on the net present value of all cash flows, both inflows and outflows.

In some specific cases, internal calculations (based on models and market data made available from Bloomberg), and/or broker statement valuations may be used.

The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

This valuation method is recognised by the Company.

Changes in unrealized profits and losses are reflected in the statement of operations under the changes in "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

Note 2 – Flat fee

The Company charges a monthly flat fee for the various subfunds, calculated on the average net asset value of the subfunds as set out in the table below:

UBS (Lux) Strategy SICAV – Dynamic Income (USD)

The Company pays a maximum monthly flat management fee for share classes “P”, “N”, “K-1”, “F”, “Q”, “I-A1”, “I-A2” and “I-A3”, calculated on the average net asset value of the subfunds. This shall be used as follows:

- In accordance with the following provisions, a maximum flat management fee based on the net asset value of the Company is paid from the Company’s assets for the management, administration, portfolio management, investment advice, and distribution of the Company (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Company’s assets, the processing of payment transactions and all other tasks listed in the “Depositary and Main Paying Agent” section of the sales prospectus: This fee is charged to the Company’s assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat management fee). The relevant maximum flat management fee will not be charged until the corresponding share

classes have been launched. An overview of the maximum flat management fees can be found under “The subfunds and their special investment policies” of the sales prospectus. The actual maximum rate applied to the flat management fee can be found in the annual and semi-annual reports.

This fee is shown in the Statement of Operations as “Flat fee”.

2. The maximum flat management fee does not include the following fees and additional expenses, which are also charged to the Company’s assets:

- a) all additional expenses related to management of the Company’s assets for the sale and purchase of assets (bid-ask spread, brokerage fees in line with the market, commissions, fees, etc.). As a rule, these expenses are calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of shares, are covered by the application of the Swing Pricing principle pursuant to the section titled “Net asset value, issue, redemption and conversion price” of the sales prospectus.
- b) fees of the supervisory authority for the establishment, modification, liquidation and merger of the Company, as well as all charges payable to the supervisory authorities and any stock exchanges on which the subfunds are listed;
- c) auditor’s fees for the annual audit and certification in connection with the establishment, modification, liquidation and merger of the Company, as well as any other fees paid to the audit firm for the services it provides in relation to the administration of the Fund as permitted by law;
- d) fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, modification, liquidation and merger of the Company, as well as for the general safeguarding of the interests of the Company and its investors, insofar as this is not expressly prohibited by law;
- e) Costs for the publication of the Company’s net asset value and all costs for notices to investors, including translation costs;
- f) costs for the Company’s legal documents (prospectuses, KIDs, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
- g) costs for the Company’s registration with any foreign supervisory authorities, if applicable, including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
- h) expenses incurred through use of voting or creditors’ rights by the Company, including fees for external advisers;

- i) costs and fees related to any intellectual property registered in the Company’s name or to the Company’s rights of usufruct;
- j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
- k) if the Management Company participates in class-action suits in the interests of investors, it may charge the Company’s assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable, and published and/or taken into account in the disclosure of the Company’s total expense ratio (TER).
- l) Performance fees (if applicable)

Fees, costs and expenses payable to the directors of the Company (including reasonable out-of-pocket expenses, insurance coverage and reasonable travel expenses in connection with meetings of the Board of Directors and remuneration of directors);

These commissions and fees are shown in the Statement of Operations as “Other commissions and fees”.

3. The Management Company may pay retrocessions to cover the distribution activities of the Company.

All taxes levied on the income and assets of the Company, particularly the “taxe d’abonnement”, will also be borne by the Company.

For purposes of general comparability with fee rules of different fund providers that do not have a flat management fee, the term “maximum management fee” is set at 80% of the flat management fee.

For share class “I-B”, a fee is charged to cover the costs of fund administration (comprising the costs of the Company, the administrative agent and the Depositary). The costs for asset management and distribution are charged outside of the Company under a separate contract concluded directly between the investor and UBS Asset Management or one of its authorised representatives.

Costs relating to the services performed for share classes I-X, K-X and U-X for asset management, fund administration (comprising the costs of the Company, the administrative agent and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled under a separate contract with the investor.

Costs relating to the services to be performed for share classes “K-B” for asset management purposes are covered by the compensation to which UBS Asset Management Switzerland AG or one of its authorised

distribution partners is entitled under a separate contract with the investor.

All costs that can be attributed to individual subfunds will be charged to these subfunds.

Costs that can be allocated to individual share classes will be charged to those share classes. If costs are incurred in connection with several or all subfunds/share classes, however, these costs will be charged to these subfunds/share classes in proportion to their relative net asset values.

With regard to subfunds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund as well as at the level of the relevant target fund. The upper limit for management fees of the target fund in which the assets of the subfund are invested amounts to a maximum of 3%, taking into account any trailer fees.

Should a subfund invest in units of funds that are managed directly or by delegation by the Management Company or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue or redemption charges may be charged to the investing subfund in connection with these target fund units.

Details on the Company's ongoing charges can be found in the KIDs.

Performance Fee

In the case of Performance Fee share classes ("PF"), the Portfolio Manager is entitled to receive a performance fee for the net outperformance of the share class against the benchmark set out in the special investment policy of the relevant subfund. The performance fee will be calculated for each financial year ending on 31 May, with the first calculation period for a share class commencing on the Business Day immediately following the expiry of the initial offer period for that share class and ending on 31 May of the next financial year (the "calculation period"). The performance fee will be calculated and accrued as an expense of the relevant share class at each valuation date and will be crystallised at the end of each calculation period, and payable to the Portfolio Manager as soon as possible after the end of the relevant calculation period.

For each calculation period, the performance fee will be equal to 20% of the Net Outperformance (as defined below) calculated at the end of the calculation period.

The "Net Outperformance" corresponds to the performance of the net asset value per share (prior to the deduction of the performance fee) in excess of the performance of the benchmark over the calculation period. In the event of a negative Net Outperformance, no performance fees shall be paid, and the negative Net

Outperformance shall be carried forward to the next calculation period. Where there is a negative Net Outperformance brought forward, the Net Outperformance shall correspond to the cumulative performance of the net asset value per share (prior to the deduction of the performance fee) in excess of the cumulative performance of the benchmark since the last performance fee payment (or since the inception of the share class, if no performance fee has been paid to date). This means that any negative Net Outperformance must be compensated before a performance fee can be charged in subsequent calculation periods.

If a performance fee has been paid at the end of a calculation period, the negative Net Outperformance carried forward for the beginning of the next calculation period will be zero.

For the avoidance of doubt, it is hereby noted that a performance fee may be paid irrespective of whether the performance of the benchmark for the relevant calculation period is positive or negative, and that there may be instances where the performance of the benchmark is negative and the share class achieves a positive Net Outperformance, which will result in a performance fee being paid even if the absolute performance of the share class is negative.

The performance reference period, which is the period at the end of which the past losses can be reset, corresponds to the whole life of the share class. Negative Net Outperformance will not be reset or adjusted other than as described above.

In case an Investment Advisor is appointed by the Portfolio Manager to provide investment recommendations, the performance fee paid to the Portfolio Manager may be shared with the Investment Advisor.

Information concerning the performance of the benchmark index can be found online at www.ubs.com/funds.

For the year ending 31 May 2023 the following performance fees have been paid:

UBS (Lux) Strategy SICAV	Share Class	Amount	Currency	Percentage
- Multi Asset Emerging Markets Dynamic (USD)	P-PF-acc	187.26	USD	0.04%
- Multi Asset Emerging Markets Dynamic (USD)	Q-PF-acc	114.37	USD	0.07%

Note 3 – Taxe d'abonnement

In accordance with the law and the regulations currently in force, the Company is subject in Luxembourg to the subscription tax at the annual rate of 0.05%, or a reduced tax d'abonnement amounting to 0.01% p.a. for some share classes, payable quarterly and calculated on the basis of its net assets at the end of each quarter.

The taxe d'abonnement is waived for that part of the net assets invested in units or shares of other undertakings for collective investment that have already paid the taxe d'abonnement in accordance with the statutory provisions of Luxembourg law.

Note 4 – Other income

Other income mainly consist of income resulting from Swing Pricing.

Note 5 – Income Distribution

The general meeting of shareholders of the respective subfunds shall decide, at the proposal of the Board of Directors and after closing the annual accounts per subfund, whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the Company falling below the minimum amount of assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Board of Directors is authorized to pay interim dividends and to suspend the payment of distributions.

Note 6 – Soft commission arrangements

If permitted by the laws governing the Portfolio Manager, the Portfolio Manager and its affiliates may enter into soft commission arrangements with certain brokers which they engage in security transactions on behalf of the subfunds under which certain goods and services used to support investment decision making will be received without a direct payment in return. Such commissions are defined as soft dollars by the Hong Kong Securities and Futures Commission. This is only done when the transaction execution is consistent with the best execution standards, and it has been determined in good faith that the brokerage fee is reasonable in relation to the value of the execution and/or brokerage services provided by the broker.

Goods and services received solely included research services. The relative costs or benefits of research received from brokers are not allocated among particular clients or funds because it is believed that the research received is, in the aggregate, of assistance in fulfilling the Portfolio Manager and its affiliates' overall responsibilities to their clients or funds they manage. During the year from 1 June 2022 to 31 May 2023 there were no transactions executed with brokers having soft commission arrangements in place and therefore no related commissions have been paid by the subfunds for these transactions.

Note 7 – Commitments on Financial Futures, Options and Swaps

Commitments on Financial Futures, Options and Swaps per subfund and respective currency as of 31 May 2023 can be summarised as follows:

a) Financial Futures

UBS (Lux) Strategy SICAV	Financial Futures on bonds (bought)	Financial Futures on bonds (sold)
– Multi Asset Emerging Markets Dynamic (USD)	3 587 015.63 USD	- USD
– Systematic Allocation Portfolio Defensive (USD)	- USD	54 671 109.49 USD
– Systematic Allocation Portfolio Dynamic (USD)	- USD	60 522 265.73 USD
– Systematic Allocation Portfolio Medium (USD)	- USD	162 657 547.10 USD
– Xtra Yield (EUR)	1 825 315.40 EUR	- EUR

UBS (Lux) Strategy SICAV	Financial Futures on indices (bought)	Financial Futures on indices (sold)
– Multi Asset Emerging Markets Dynamic (USD)	- USD	2 296 320.00 USD
– Systematic Allocation Portfolio Defensive (USD)	61 869 353.15 USD	- USD
– Systematic Allocation Portfolio Dynamic (USD)	78 429 493.64 USD	- USD
– Systematic Allocation Portfolio Medium (USD)	168 339 223.36 USD	- USD
– Xtra Yield (EUR)	3 587 342.45 EUR	5 928 831.86 EUR

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

b) Options

UBS (Lux) Strategy SICAV	Options on indices, classic-styled (sold)
– Dynamic Income (USD)	20 792 468.74 USD

c) Swaps

UBS (Lux) Strategy SICAV	Swaps and forward swaps on indices (purchased)	Swaps and forward swaps on indices (sold)

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

The TER for classes of shares which were active less than a 12 month period are annualised.

Note 9 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

$$\frac{(\text{Total purchases} + \text{total sales}) - (\text{total subscriptions} + \text{total redemptions})}{\text{Average of net assets during the period under review}}$$

The portfolio turnover statistics are the following for the period under review:

UBS (Lux) Strategy SICAV	Portfolio Turnover Rate (PTR)
– Dynamic Income (USD)	58.53%
– Fixed Income Sustainable (EUR)	38.55%
– Fixed Income Sustainable (USD)	50.12%
– Income Sustainable (CHF)	48.66%
– Income Sustainable (EUR)	44.29%
– Income Sustainable (USD)	37.27%
– Multi Asset Emerging Markets Dynamic (USD)	9.45%
– Systematic Allocation Portfolio Defensive (USD)	45.20%
– Systematic Allocation Portfolio Dynamic (USD)	36.57%
– Systematic Allocation Portfolio Medium (USD)	38.97%
– Xtra Yield (EUR)	49.08%

Note 10 – Transaction costs

Transaction costs include brokerage fees, which also include costs from Commission Sharing Arrangements, as well as stamp duty, local taxes and other foreign charges if incurred during the fiscal year. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 31 May 2023, the fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions, as follows:

UBS (Lux) Strategy SICAV	Transaction costs
– Dynamic Income (USD)	53 079.34 USD
– Fixed Income Sustainable (EUR)	26.97 EUR
– Fixed Income Sustainable (USD)	61.55 USD
– Income Sustainable (CHF)	767.46 CHF
– Income Sustainable (EUR)	136.75 EUR
– Income Sustainable (USD)	183.50 USD
– Multi Asset Emerging Markets Dynamic (USD)	294.93 USD
– Systematic Allocation Portfolio Defensive (USD)	36 965.15 USD
– Systematic Allocation Portfolio Dynamic (USD)	40 878.73 USD
– Systematic Allocation Portfolio Medium (USD)	110 836.16 USD
– Xtra Yield (EUR)	2 837.11 EUR

Furthermore, in accordance with the standard market practices on bond markets, purchases and redemptions underlies the “Bid-Offer-Spread”. According to this principle a difference results between the purchase/redemption price and the market value which corresponds to the wage of the Broker.

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each fund.

Note 11 – Related party transactions

Connected persons in the context of this note are those defined in the SFC Code on Unit Trusts and Mutual Funds. All transactions entered into during the year between the subfunds and its connected persons were carried out in the normal course of business and on normal commercial terms.

a) Transactions on securities and derivative financial instruments

The volume of securities and derivative financial instruments undertaken via a broker that is an affiliate of the Management Company (except options), the Portfolio Manager, the Depositary or the Board of Directors for the financial year from 1 June 2022 to 31 May 2023 for the following subfunds licensed for sale in Hong Kong is:

UBS (Lux) Strategy SICAV	Volume of transactions in Securities and derivative financial instruments with related parties	As a % of the total of security transactions
– Income Sustainable (USD)	87 675 723.66	45.29%

UBS (Lux) Strategy SICAV	Commissions on transactions in Securities and derivative financial instruments with related parties	Average rate of commission
– Income Sustainable (USD)	108.50	0.00%

As disclosed in Note 10 – Transaction Costs, the transaction costs for fixed-income investments, exchange-traded futures contracts and other derivative contracts are included in the purchase and sale price of the investment and are therefore not listed individually here.

UBS (Lux) Strategy SICAV	Volume of transactions in other securities (except equities, equity-like securities and derivative financial instruments) with related parties	As a % of the total of security transactions
– Income Sustainable (USD)	0.00	0.00%

According to normal Market practice, no commissions have been charged to the Company on transactions on “other securities (except equities and equity-like securities)” with related parties.

Such transactions were entered in the ordinary course of business and on normal commercial terms.

For the conversion of the volume of transactions with related parties into subfund currency, the exchange rates of the financial statements as of 31 May 2023 were used.

b) Transactions in Shares of the SICAV

Connected persons may invest in a new subfund/share-class for the purpose of providing seed capital (“Direct Investment”), with the intent of remaining invested until the subfund/shareclass has substantial net assets. Such investments are at arm’s length and comply with all late trading/market timing prevention requirements. No connected person may invest for the purpose of exercising management or control over any Fund or the Company.

UBS (Lux) Strategy SICAV	Share class	Market value	% Net fund-assets
– Income Sustainable (USD)	P-6%-mdist	9 368.00 USD	0.01%

c) Holding of the Directors

The Management Company and its connected persons are allowed to subscribe for, and redeem, shares in the subfunds.

The Directors of the Management Company and the Directors of the Company had no holdings in the subfunds licensed for sale in Hong Kong as at 31 May 2023.

Note 12 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the Company and the depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Company and/or the depositary can elect to make themselves subject to the jurisdiction of the countries in which the Company shares were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited from the independent auditor. However, in the case of shares sold to investors from other countries in which Company shares can be bought and sold, the Company and the depositary may recognize approved translations (i.e. approved by the Company and the depositary) into the languages concerned as binding upon itself.

Note 13 – OTC-Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or can not meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

OTC-Derivatives*

The OTC-Derivatives of the below mentioned subfunds have margin-accounts as collateral.

Appendix 1 – Global Exposure (unaudited)

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Appendix 3 – Securities Financing Transaction Regulation (SFTR) (unaudited)

a) The Company engages in Securities Financing Transactions (hereafter “SFT”) (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund’s Net Assets Value as well as a proportion of the total lendable securities, as at 31 May 2023.

UBS (Lux) Strategy SICAV	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– Dynamic Income (USD)	3.78%	3.98%
– Fixed Income Sustainable (EUR)	7.53%	7.58%
– Fixed Income Sustainable (USD)	5.69%	5.73%
– Income Sustainable (CHF)	0.37%	0.38%
– Systematic Allocation Portfolio Defensive (USD)	1.22%	1.38%
– Systematic Allocation Portfolio Dynamic (USD)	3.08%	3.51%
– Systematic Allocation Portfolio Medium (USD)	2.06%	2.30%

The total amount (absolute value) of the securities lent is disclosed in Note 13 – OTC-Derivatives and Securities Lending.

Data on collateral reused

Amount of collateral reused, compared with the maximum amount disclosed to investors: None

Cash collateral reinvestment income to the Company: None

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depository.

Service providers that provide securities lending services to the Company have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 40% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent and UBS Switzerland AG providing securities lending services. All costs/fees of running the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct and indirect costs/fees generated by the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

Data on income and expense for total return swaps

There are no fee sharing arrangements on Total Return Swaps and 100% of the income/expenses generated are recognised in the Statement of Operations.

The TRS transaction costs are not separately identifiable as explained in Note 10.

Appendix 4 – Remuneration Policy and quantitative disclosure (unaudited)

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the “Management Company” or the “AIFM”) has adopted a remuneration framework (the “Framework”) whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the “UCITS Law”) transposing the UCITS Directive 2009/65/EC (the “UCITS Directive”) as amended by Directive 2014/91/EU (the “UCITS V Directive”);
- (ii) the Alternative Investment Fund Managers Directive (“AIFMD”) 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA’s guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA’s guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”);
- (viii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the “UBS Group”) Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>.

The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 23 September 2022. The changes made to the Framework relate to the extension of the Management Company/the AIFM license to cover non-core services investment advice and reception and transmission of orders in relation to financial instruments.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

Appendix 4 – Remuneration Policy and quantitative disclosure (unaudited)

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2022 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	10 669	1 787	12 456	100
- whereof Identified Staff	4 644	985	5 629	33
- thereof Senior Management*	2 341	714	3 055	11
- thereof Other Identified Staff	2 303	271	2 574	22

* Senior Management includes the CEO, the Conducting Officers, the Head of Compliance and the Independent Director.

Remuneration of delegates staff

As market or regulatory practice develops UBS Asset Management may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2022, the aggregate total remuneration paid by the delegated Investment Manager to its Identified Staff in relation to the Company amounted to EUR 115 868, of which EUR 32 588 represented the variable remuneration (2 beneficiaries).

* The investments underlying this subfund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

Consideration of sustainability risks are not integrated due to the investment strategy and the nature of the underlying investments (SFDR Art. 6). Sustainability risks are not currently expected to have a material impact on achieving the return objectives of the subfund.

The subfund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

UBS (Lux) Strategy SICAV – Xtra Yield (EUR)**

** The investments underlying this subfund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

The investment process integrates material sustainability and/or Environmental, Social and Governance (ESG) considerations. ESG integration is driven by taking into account material ESG risks, which could impact investment returns, and implementing ESG strategies that enhance returns rather than being driven by specific ethical principles or norms. The analysis of material sustainability/ESG considerations can include many different aspects, for example; the carbon footprint, reducing consumption and waste, employee [and/or tenant] health and well-being, supply chain management, fair customer treatment and governance processes of a company. The Portfolio Manager may still make investments with a higher ESG risk profile where the Portfolio Manager believes the potential compensation and ability to mitigate outweighs the risks identified. Therefore, ESG Integrated Funds do not have a sustainable focus as the primary objective, but they are investment funds that primarily aim at maximizing financial performance whereby ESG aspects are an important factor incorporated into the investment process and ongoing asset management.

The subfund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Strategy SICAV – Fixed Income Sustainable (EUR)
Legal entity identifier: 4LZQXF3QU49GVZN7TX20

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 65.61% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

At least 70% of the subfund’s net assets (excluding cash, cash equivalents, and derivatives) will be invested (a) in investment strategies that promote environmental (E) and/or social (S) characteristics and comply with Article 8 of the Regulation on sustainability-related disclosures in the financial services sector (“SFDR”), or are deemed equivalent, or (b) in investment strategies with sustainable investment as their objective and comply with Article 9 of SFDR or that have the reduction of carbon emissions as an objective and comply with Article 9 of SFDR, or are deemed equivalent.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

● **How did the sustainability indicators perform?**

During the reference period, the percentage of the subfund's net assets (excluding cash, cash equivalents and derivatives) aligned with the promoted characteristic described above was higher than 70%.

Percentage of the financial product aligned with the promoted characteristic: 87.36%

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager of the underlying investment strategy applies exclusions to the investment universe of the financial product. These exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. In addition, investments are positively screened according to the criteria defined for the respective underlying investment strategy.

For investments in passively managed strategies that track an ESG index, indicators for do no significant harm are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for do no significant harm criteria via UBS Asset Management's manager research process described above.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

----- How were the indicators for adverse impacts on sustainability factors taken into account?

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager employs a proprietary ESG Risk Dashboard. The Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

----- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For investments in active equity and fixed income strategies managed by UBS Asset Management, companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the sustainable investment universe.

For investments in passively managed strategies that track an ESG index, alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human rights are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for alignment with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights via UBS Asset Management's manager research process described above.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager of the underlying investment strategy applies exclusions to the investment universe of the financial product. These exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager employs a proprietary ESG Risk Dashboard. The Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases. Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 May 2023.

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 65.61%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

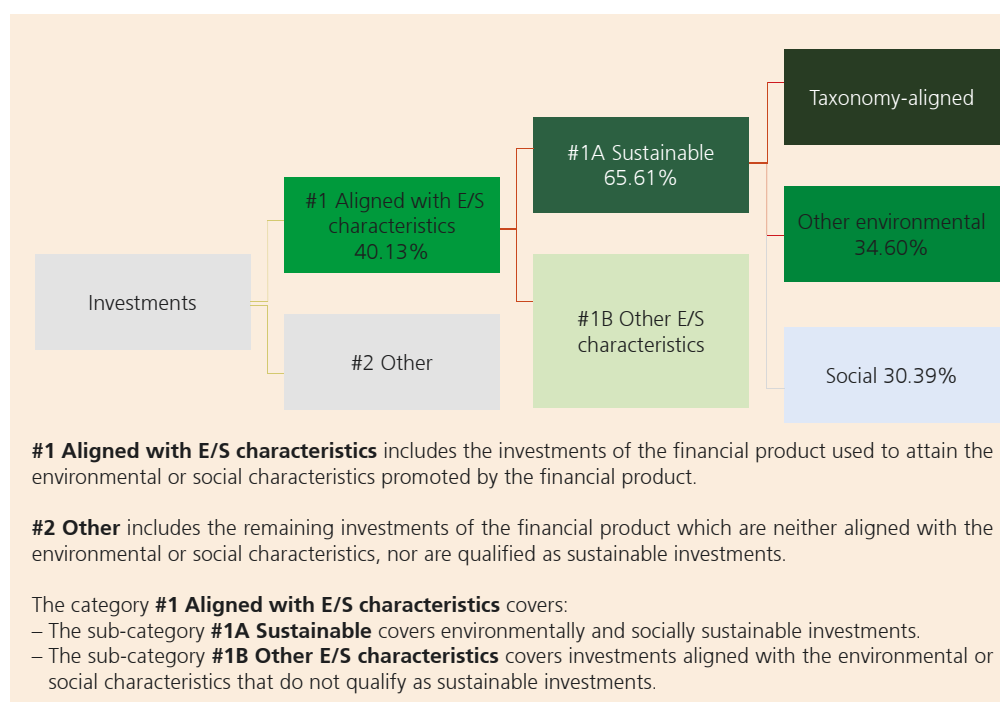

Asset allocation

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

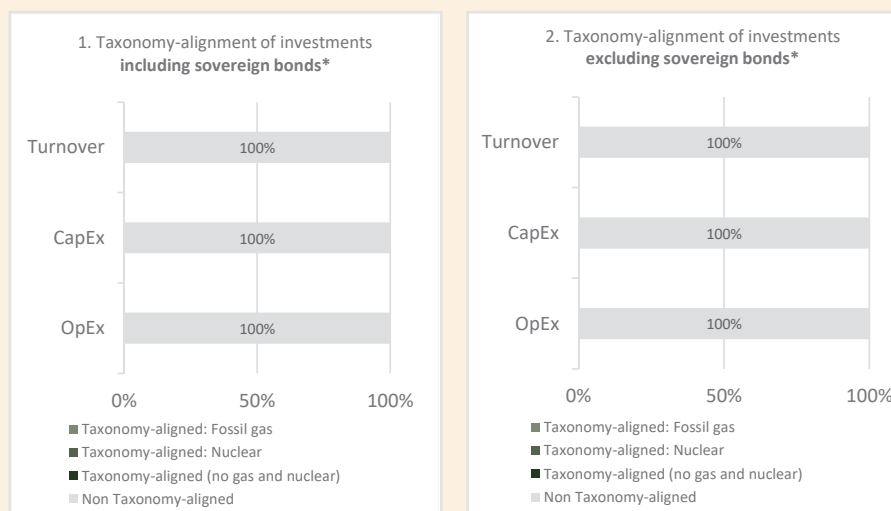

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

- **What was the share of socially sustainable investments?**

The financial product targets a minimum share of socially sustainable investments greater than 0%.

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

- **How did this financial product perform compared to the reference benchmark?**

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.
- ***How did this financial product perform compared with the broad market index?***
Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Strategy SICAV – Fixed Income Sustainable (USD)
Legal entity identifier: 54930028RVK7YIH3XJ30

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 62.18% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

At least 70% of the subfund’s net assets (excluding cash, cash equivalents, and derivatives) will be invested (a) in investment strategies that promote environmental (E) and/or social (S) characteristics and comply with Article 8 of the Regulation on sustainability-related disclosures in the financial services sector (“SFDR”), or are deemed equivalent, or (b) in investment strategies with sustainable investment as their objective and comply with Article 9 of SFDR or that have the reduction of carbon emissions as an objective and comply with Article 9 of SFDR, or are deemed equivalent.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

● **How did the sustainability indicators perform?**

During the reference period, the percentage of the subfund's net assets (excluding cash, cash equivalents and derivatives) aligned with the promoted characteristic described above was higher than 70%.

Percentage of the financial product aligned with the promoted characteristic: 90.42%

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager of the underlying investment strategy applies exclusions to the investment universe of the financial product. These exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. In addition, investments are positively screened according to the criteria defined for the respective underlying investment strategy.

For investments in passively managed strategies that track an ESG index, indicators for do no significant harm are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for do no significant harm criteria via UBS Asset Management's manager research process described above.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager employs a proprietary ESG Risk Dashboard. The Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For investments in active equity and fixed income strategies managed by UBS Asset Management, companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the sustainable investment universe.

For investments in passively managed strategies that track an ESG index, alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human rights are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for alignment with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights via UBS Asset Management's manager research process described above.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For investments in active equity and fixed income strategies managed by UBS Asset Management, companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the sustainable investment universe.

For investments in passively managed strategies that track an ESG index, alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human rights are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for alignment with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights via UBS Asset Management's manager research process described above.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager of the underlying investment strategy applies exclusions to the investment universe of the financial product. These exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager employs a proprietary ESG Risk Dashboard. The Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases. Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

* Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 66.12%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

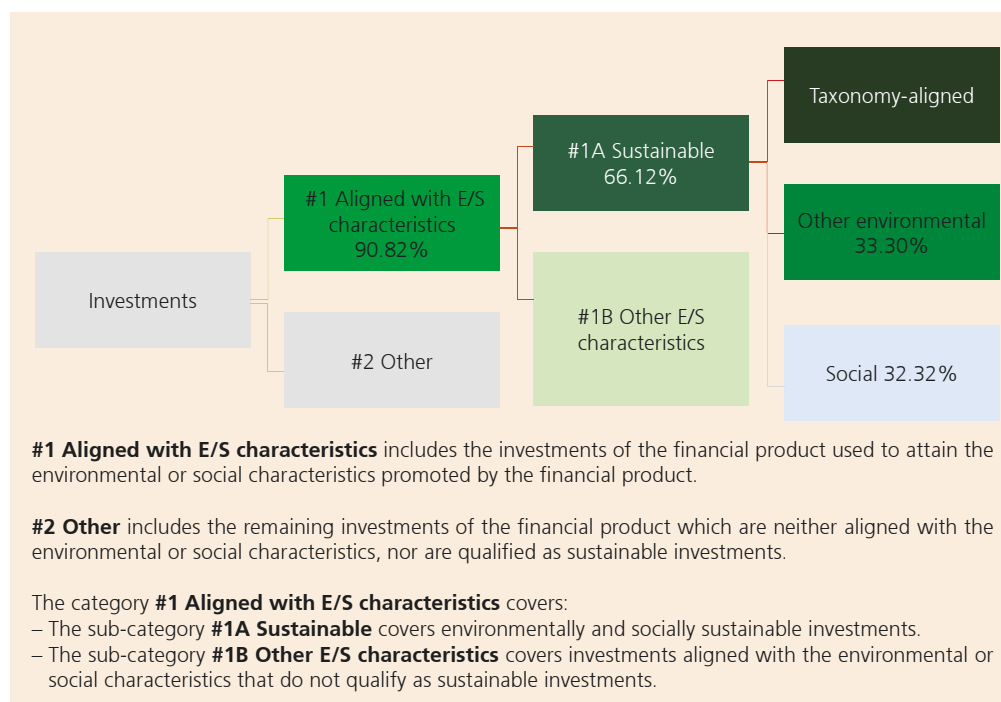

Asset allocation

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section "Structure of the Securities Portfolio" of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

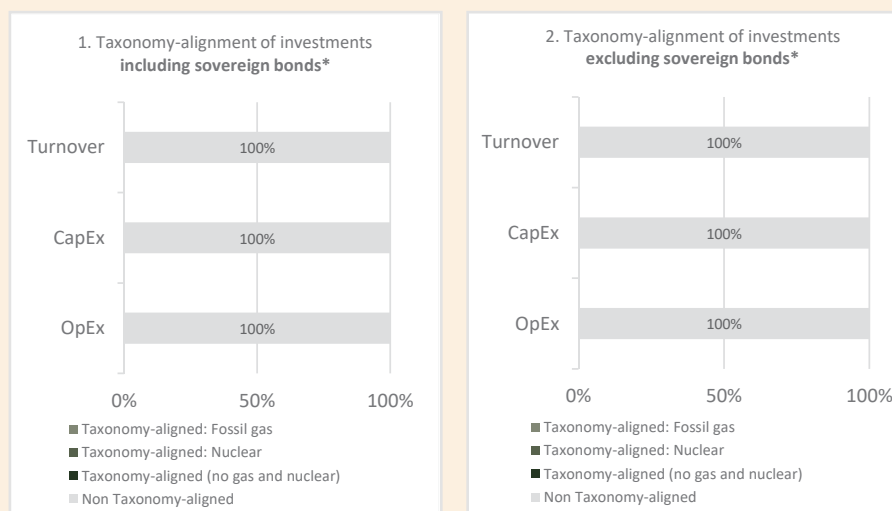

- Yes:
 - In fossil gas
 - In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

- **What was the share of socially sustainable investments?**

The financial product targets a minimum share of socially sustainable investments greater than 0%.

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

- **How did this financial product perform compared to the reference benchmark?**

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How does the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: UBS (Lux) Strategy SICAV – Income Sustainable (EUR)
Legal entity identifier: 549300XHZO5R6H42UZ95

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 66.75% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics are promoted by the financial product:

At least 70% of the subfund's net assets (excluding cash, cash equivalents, and derivatives) will be invested (a) in investment strategies that promote environmental (E) and/or social (S) characteristics and comply with Article 8 of the Regulation on sustainability-related disclosures in the financial services sector ("SFDR"), or are deemed equivalent, or (b) in investment strategies with sustainable investment as their objective and comply with Article 9 of SFDR or that have the reduction of carbon emissions as an objective and comply with Article 9 of SFDR, or are deemed equivalent.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/ or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

● **How did the sustainability indicators perform?**

During the reference period, the percentage of the subfund's net assets (excluding cash, cash equivalents and derivatives) aligned with the promoted characteristic described above was higher than 70%.

Percentage of the financial product aligned with the promoted characteristic: 94.61%

● **... and compared to previous periods?**

Not applicable. This is the first reference period.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the financial product partially made was to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager of the underlying investment strategy applies exclusions to the investment universe of the financial product. These exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. In addition, investments are positively screened according to the criteria defined for the respective underlying investment strategy.

For investments in passively managed strategies that track an ESG index, indicators for do no significant harm are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for do no significant harm criteria via UBS Asset Management's manager research process described above.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager employs a proprietary ESG Risk Dashboard. The Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For investments in active equity and fixed income strategies managed by UBS Asset Management, companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the sustainable investment universe.

For investments in passively managed strategies that track an ESG index, alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human rights are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for alignment with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights via UBS Asset Management's manager research process described above.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For investments in active equity and fixed income strategies managed by UBS Asset Management, companies violating the United Nations Global Compact (UNGC) principles, who do not demonstrate credible corrective action will be excluded from the sustainable investment universe.

For investments in passively managed strategies that track an ESG index, alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human rights are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for alignment with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights via UBS Asset Management's manager research process described above.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Portfolio Manager applies exclusions to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the main body of the Sales Prospectus.

This subfund utilizes underlying investment strategies to achieve its investment objective.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager of the underlying investment strategy applies exclusions to the investment universe of the financial product. These exclusions include thermal coal mining and thermal coal-based energy production & oil sands. UBS Asset Management does not invest in companies involved in controversial weapons i.e. cluster munitions, anti-personnel mines, chemical and biological weapons, or companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons.

For investments in active equity and fixed income strategies managed by UBS Asset Management, the portfolio manager employs a proprietary ESG Risk Dashboard. The Dashboard allows equity and credit analysts to quickly identify companies with significant ESG risks via the "UBS ESG Risk Signal". This clear, actionable signal serves as starting point for more in-depth analysis of the underlying sources of these risks and the links to their investment cases. Companies violating the United Nations Global Compact (UNGC) principles, which do not demonstrate credible corrective action will be excluded from the investment universe.

For investments in passively managed strategies that track an ESG index, indicators for adverse impacts on sustainability factors are taken into account by the Index provider as appropriate to the Index family.

For investments in third party managed funds, the portfolio manager of the underlying investment strategy may utilize different methodologies. Third party strategies are assessed for adverse impacts via UBS Asset Management's manager research process described above.

What were the top investments of this financial product?

Largest Investments	Sector	% Net Assets*	Country
UBS Lux Bond SICAV - USD Investment Grade Corporates Sustainable	Investment funds & benefit fund	17.99	Luxembourg
Focused SICAV - World Bank Long Term Bond USD	Investment funds & benefit fund	16.14	Luxembourg

* Minor differences with “Statement of Investments in Securities” might occur due to rounding in production system

● What was the proportion of sustainability-related investments?

As per the end of the reference period the proportion of sustainability-related investments of the financial product was 64.43%.

● What was the asset allocation?

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31 May 2023.

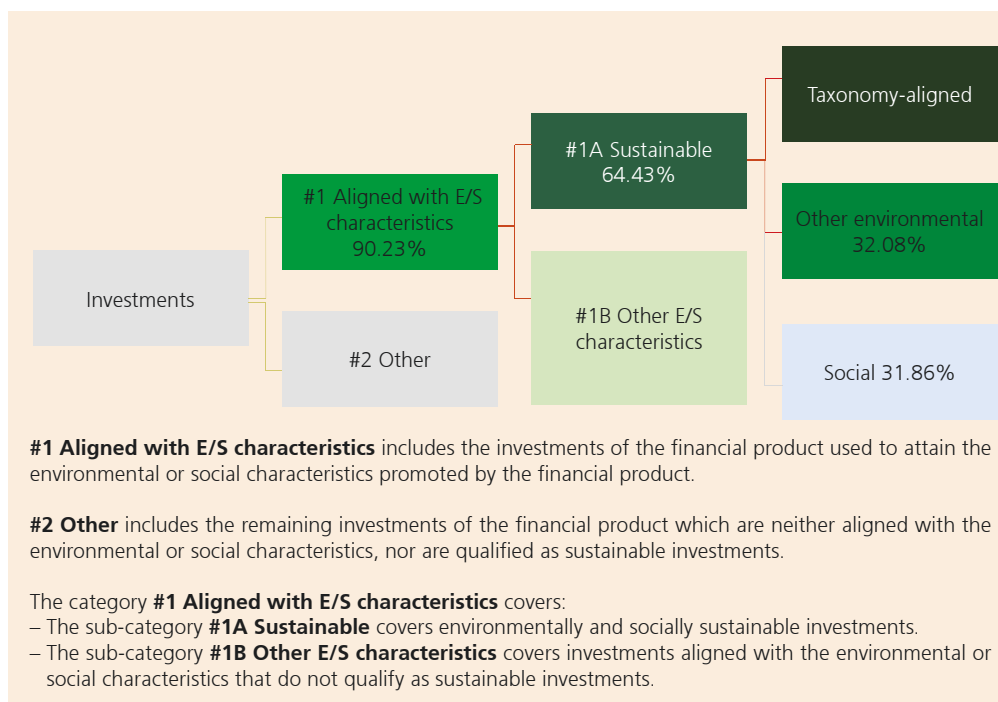

Asset allocation

describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant subfund of this Annual report to review the breakdown of the economic sectors where the investments were made.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation (“Taxonomy Aligned Investments”). On that basis, the financial product has 0% Taxonomy Aligned Investments.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

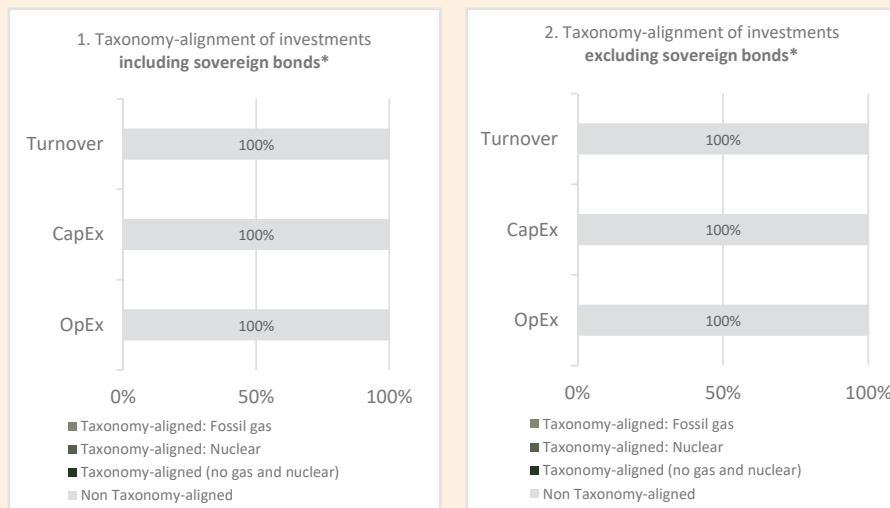

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. This is the first reference period.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The financial product invests in economic activities which are environmentally sustainable but not EU Taxonomy aligned, this is due to the absence of the required implementing legislation and in particular the absence of the necessary taxonomy-related data provided by the investee companies and of a well-defined calculation methodology. The financial product targets a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy greater than 0%.

- **What was the share of socially sustainable investments?**

The financial product targets a minimum share of socially sustainable investments greater than 0%.

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

- **How did this financial product perform compared to the reference benchmark?**

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.
- ***How did this financial product perform compared with the broad market index?***
Not applicable.
