General information

VITRUVIUS (the "Company") is organised as a "Société d'Investissement à Capital Variable" in Luxembourg. It qualifies as an undertaking for collective investment in transferable securities under the Council Directive 2009/65/EC, as amended, and is governed by Part I of the amended law of 17th December 2010 (the "2010 Law") relating to undertakings for collective investment. It was incorporated on 14th October 1999 for an unlimited period.

There are no provisions in the Articles of Incorporation (the "Articles") expressly governing the remuneration (including pension or other benefits) of the Directors. The Directors shall be reimbursed their out-of-pocket expenses and their remuneration shall be approved by the shareholders of the Company at the general meeting.

The Company has not designated a management company to manage its operations and therefore qualifies as self-managed SICAV. In accordance with the provisions of article 27 of the 2010 Law and with the CSSF circular 12/546, the Board of Directors has delegated the conduct of the business of the Company to three General Managers.

The Company is registered under the number B 71 899 at the "Registre de Commerce et des Sociétés de Luxembourg", where, its Articles are available for inspection and a copy thereof may be obtained upon request. The Articles were first published in the "Mémorial, Recueil des Sociétés et Associations" (the "Mémorial") in Luxembourg on 25th November 1999. Its principal and registered office is at 11, rue Aldringen, L-1118 LUXEMBOURG.

The "Notice Légale" required by Luxembourg law in connection with the offering of shares was filed with the "Registre de Commerce et des Sociétés de Luxembourg".

At the date of the report, the following portfolios are offered:

- Vitruvius - Asian Equity	in USD
- Vitruvius - Emerging Markets Equity	in USD
- Vitruvius - European Equity	in EUR
- Vitruvius - Greater China Equity	in USD
- Vitruvius - Growth Opportunities	in USD
- Vitruvius - Japanese Equity	in JPY
- Vitruvius - Swiss Equity	in CHF
- Vitruvius - US Equity	in USD

The Company issues different Classes of shares for each portfolio: Class B shares and Class BI shares.

The Classes of shares are differentiated by the following features, unless otherwise provided for a specific portfolio:

- Class B shares may be subscribed by any type of Investors with no specific restriction, other than general restrictions provided for.
- Class BI shares may only be subscribed by Institutional Investors as such term may from time to time be interpreted by the Luxembourg Supervisory Authority (CSSF). Both Class B and Class BI shares are capitalisation shares.

When Class B and Class BI shares are offered by a portfolio, they are offered in the reference currency of the relevant portfolio and may be offered in EUR, GBP, USD and SGD if the reference currency of such portfolio is different from these currencies.

When EUR, GBP, USD or SGD denominated shares are offered in portfolios whose reference currency is different from EUR, GBP, USD or SGD, these shares are hedged against the foreign exchange risk.

General information (continued)

In the case where shares are hedged against the exchange rate of a particular currency, such hedging may, for technical reasons, not be complete and not cover the entire exchange rate risk. Moreover, in case of hedging, the investors will not take advantage of any possible positive evolution of the foreign exchange rate.

The Company is only available and authorised for the retail public distribution in Austria, France, Germany, Italy, Luxembourg, Spain, Sweden and Switzerland.

Additional information for investors in Switzerland

Representative

The representative in Switzerland is BANCA DEL CERESIO SA, Via Pretorio 13, CH-6901 LUGANO.

Paying Agent

The paying agent in Switzerland is BANCA DEL CERESIO SA, Via Pretorio 13, CH-6901 LUGANO.

Place where the relevant Company documents may be obtained

The prospectus, the KIID, the Articles of Incorporation as well as the annual and semi-annual accounts may be obtained free of charge from the Representative.

Publications

- 1. Publications in respect of the Company must be made in Switzerland in the "Feuille Officielle Suisse du Commerce" (Swiss Official Journal) and on the electronic platform www.fundinfo.com.
- 2. The issue and the redemption prices, respectively the net asset value together with a footnote stating "excluding commissions" of all relevant Share Classes will be published daily on the electronic platform www.fundinfo.com.

Payment of remunerations and distribution remuneration

- 1. In connection with distribution in Switzerland, the Company may pay reimbursement to the following qualified investors who, from the commercial perspective, hold Company shares for third parties:
 - life-insurance companies,
 - pension funds and other retirement provision institutions.
 - investment foundations.
 - Swiss fund management companies,
 - foreign funds management companies and providers,
 - investment companies.
- 2. In connection with distribution in Switzerland, the Company may pay distribution remunerations to the following distributors and sales partners:
 - distributors subject to the duty to obtain authorisation from the FINMA pursuant to Articles 13 and 19 CISA (the Collective Investments Schemes Act).
 - distributors exempt from the duty to obtain authorisation pursuant to Article 13.3 CISA and Article 8 CISO (Collective Investments Schemes Ordinance),
 - sales partners who place the Company shares exclusively with institutional investors with professional treasury facilities,
 - sales partners who place the Company shares exclusively on the basis of a written asset management mandate.

Place of performance and jurisdiction

In respect of the shares distributed in or from Switzerland, the place of performance and jurisdiction is at the registered office of the Representative.

Copies of the following documents are also available there for inspection during the usual business hours on business day (except on Saturdays and official public holidays) free of charge:

- 1. Investment Management Agreement,

- Custodian Agreement,
 Domiciliary Agency Agreement,
 Registrar and Transfer Agency Agreement,
 Administrative Agency Agreement,
 Paying Agency Agreement,
 the risk management process of the Company.

Additional information for investors in Austria

Indications for investors in Austria

The sales prospectus, the KIID, the Articles of Incorporation, the audited annual and unaudited semiannual reports can be obtained from the Austrian Paying Agent ERSTE BANK DER ÖSTERREICHISCHEN SPARKASSEN AG, Graben, 21, A-1010 VIENNA. The subscription, redemption and conversion prices and all other details and information to which shareholders have a right may be available for inspection at the Company's registered office.

Additional information for investors in UK

The Company obtained approval from HM Revenue & Customs to become a reporting fund for UK tax purposes with effect from 1st January 2010. This reporting fund status may alter the tax treatment of shareholders who are either ordinarily resident in the UK or are themselves reporting funds and were holders of the Company's shares. Investors in reporting funds are subject to tax on their share of the reporting fund's income for an accounting period, whether or not the income is distributed to them, whilst any gains on disposal of their investment are treated as capital gains.

HM Revenue & Customs authorised the following share classes into the regime of Reporting Fund:

- Vitruvius - Asian Equity - Vitruvius - Emerging Markets Equity - Vitruvius - European Equity - Vitruvius - Greater China Equity - Vitruvius - Growth Opportunities - Vitruvius - Japanese Equity - Vitruvius - Swiss Equity - Vitruvius - Swiss Equity - Vitruvius - US Equity

Report on activities of the Board of Directors

After a negative start to the year (-3.2% in January) the MSCI World Index (TR Net, LCL) ended up 5.5% for the first half of 2014, with a number of equity markets around the world reaching new highs. In the US, the S&P 500 Index rose 6.1%. The US Federal Reserve continued reducing its asset purchase programme and new Fed Chairwoman Janet Yellen indicated that interest rates may rise sooner than expected, as the US economy rebounded, following a dip related to the harsh winter. Economic data continued a mild positive trend in Europe, although the recovery showed signs of fading towards the end of the period. European elections, without much surprise, brought a strong result to some anti-Euro parties, especially in the UK and France. In June, the ECB forced deposit rates into negative territory and announced a EUR 400bn targeted long-term refinancing operation, aimed at supporting bank lending to smaller companies for the next four years. European markets experienced some volatility but the MSCI Europe index (EUR) finished up 4.1%. Emerging Markets performed well with the MSCI Emerging Market Index (TR Net) up 6.1%. The index was driven by Brazil (+7.8%), Taiwan (+11.3% - helped by the robust US data) and India (+21.1%). In India, the elections proved a substantial catalyst, both pre and post the victory of Narendra Modi and the BJP. Indonesia, the Philippines and Thailand also made good gains, variously recovering some or all of their losses of 2013. However, China was weak (MSCI China -2.6%) as disappointing economic data raised the possibility of a steeper than expected slowdown. Steps by the authorities in the second quarter did alleviate some of these concerns though. Russia was also weak, impacted by the escalation of geopolitical tensions in the Ukraine. Meanwhile, civil unrest in Thailand saw the army take power (for the 12th time in 82 years). The Japanese equity market was down in the first half of the year (Topix -3.1% in JPY) due to a sharp correction in the first quarter. Economic data continued to point towards a recovery although the consumption tax increase in April had a negative impact. In June. Prime Minister Abe announced a package of economic reforms including corporate tax cuts and measures to incentivize women and foreigners to join the labour force.

[Please note; All returns in the Report of the Board of Directors are in USD terms unless otherwise specified]

Vitruvius - Asian Equity

Vitruvius - Asian Equity portfolio was up 2.2% (USD class) in the first half of 2014 (+2.2% in EUR class). Over the same period the MSCI AC Asia Pacific TR USD index gained 4.4%. Since its inception in January 2010 Vitruvius - Asian Equity portfolio is up 38.5% while the index has gained 39.8%. In the first half of 2014, there were positive contributions from energy and technology stocks in Australia, including Oil Search and Computershare, as well as from Indonesian bank Bank Mandiri, Taiwanese technology positions like TSMC and Indian financials, including HDFC. However, a significant portion of these gains was offset by poor performance in China, especially from internet position SouFun which was added to the portfolio in May but subsequently declined (it fell sharply mid-June after several brokers downgraded the stock, fearing fee discounts will impact profits), and from a long held alcoholic beverage stock that was sold in May but not before detracting from returns. Market exposure averaged 96% in the first half of the year and ended June at 98%. The Hong Kong allocation was reduced (from 14% to 6%), principally as a result of exiting Wing Hang Bank, as was Japan (from 45% to 40%). Meanwhile, there were increases to India (rising 4% to 7%, Bharti Airtel was added) and Korea (up 8% to 12%, new stock Hyundai Motor was added).

Vitruvius - Emerging Markets Equity

Vitruvius - Emerging Markets Equity portfolio gained 3.3% in the USD class (+3.2% in the EUR class) in the first half of 2014 while the MSCI Emerging Markets index (total return, USD) was up 6.1%. Since its inception in May 2002, Vitruvius - Emerging Markets Equity portfolio has risen 360.1% (USD class) versus a 305.8% gain for the MSCI Emerging Markets index (total return, USD) over the same period. In terms of performance, India was the biggest country contributor for the 6 month period, making good returns in February and March and again in May in the post-election bounce. Financials were the main driver in India with notable contributors including Yes Bank and Power Finance Corp.

Report on activities of the Board of Directors (continued)

The allocation to India was also increased from 8% at the start of the year to 14% in June. The UAE also made a good contribution, mainly due to Emaar Properties and Dubai Islamic Bank. After making good gains, both positions were propitiously exited in stages through May and June, largely avoiding the June sell-off. Frontier stocks made a good contribution overall with stocks in Pakistan, such as Pakistan State Oil and Lucky Cement, also adding to returns. Other positives included Brazilian financials and non-cyclicals and also positions across Taiwan and Korea. However, offsetting these positive contributions, and accounting for much of the relatively lacklustre performance, was HK/China. Here, financials and consumer cyclicals were substantial detractors, including names like Ping An (H shares) and New Oriental Education & Technology. Russia was also costly with Yandex and Sberbank among the biggest detractors there. Market exposure was rather contained in the first half of 2014, averaging 88% and ranging between 82% in January and 93% in April.

Vitruvius - European Equity

Vitruvius - European Equity portfolio returned 1.8% in the first half of 2014 (EUR Class), while the MSCI Europe index (EUR) was up 4.1%. Since its inception in October 1999 Vitruvius - European Equity portfolio has risen 182.4% (EUR Class) against an increase of 3.4% for the MSCI Europe index (EUR) over the same period. The positive return in the first semester of 2014 was mainly generated in consumer cyclical stocks, with gains in small positions in airlines, and also financials. Within financials, banks had a positive impact although with dispersed performances: BNP, Commerzbank, Barclays detracted, while positions in peripheral Europe such as Intesa Sanpaolo, Banco Santander and Banco Popular were highly profitable. On the negative side, the communications sector was detrimental, with losses in media stocks like Sky Deutschland and Daily Mail. A position in UK online food retailer Ocado, one of the best contributors in 2013, was costly in H1 2014 while a general lack of exposure to consumer non-cyclical stocks was unhelpful in relative terms. Market exposure ranged between 80% and 90% during the period without any significant change to the structure of the portfolio. There was a small short exposure through derivatives in the first quarter which was reversed into a long exposure in the second quarter; the long derivatives strategy established at the end of April peaked at around 5% (delta adjusted) and declined to 1%, at the end of the period, with the expiration of most of the options.

Vitruvius - Greater China Equity

Vitruvius – Greater China Equity portfolio was down 2.9% in the USD Class (-2.8% in the EUR Class) in the first half of 2014, while the MSCI China index (TR, USD) was down 0.7%. Since its inception in May 2009, Vitruvius Greater China Equity portfolio is up 57.9% in the USD Class (+56.7% in the EUR Class) against +32.6% for the MSCI China USD. In terms of performance, internet and technology names made the only positive contributions to the portfolio over the whole period, despite being the main reason for the weak performance in March and April. The top stock contributors included YY Inc, Bitauto, Tencent, Autonavi and Ctrip. On the other hand, disappointing stock picking in the consumer and energy sectors, such as Great Wall Motor, Yashili and Sinopec Kantons, plus the relative lack of exposure to banks in the second quarter as they rebounded, were responsible for the portfolio's lacklustre first half performance. The average market exposure level was 86% for the first half of the year. Exposure decreased significantly in May as a result of a reduction in the allocation towards consumer cyclicals. Communications, consumer cyclicals and consumer non-cyclicals were the largest sector allocations at the end of June, while energy stocks were reduced throughout the period.

Vitruvius - Growth Opportunities

Vitruvius - Growth Opportunities portfolio was up 5.6% in the USD class (+5.5% in the EUR class) for the six months to the end of June 2014, while the S&P North American Technology index rose 6.3%. Since 15th September 2000, when there was a major change in investment strategy and advisor, the portfolio is down 1.3% versus a fall of 17.1% for the reference index. The portfolio benefitted from its

Report on activities of the Board of Directors (continued)

allocation to semiconductor stocks (avg. 14%), as Micron Technology, a leading memory manufacturer, was a noteworthy contributor profiting from the industry consolidation and increased DRAM prices, while Intel and Applied Materials were also beneficial. The computer allocation (avg. 20%) was also a positive, mainly thanks to Apple, the biggest single contributor to the portfolio, as investors' fears about the company's growth potential were assuaged, with iPhone sales, especially in China, above expectations. Elsewhere, several software names, like Microsoft and Oracle generated good gains, followed by telecoms such as Palo Alto Networks and Cisco Systems. In particular, Microsoft was the second largest single contributor: its new CEO, Satya Nadella, embarked on a new strategy focused on mobile and cloud-services. On a negative note, internet proved costly overall, as good contributions from Facebook and F5 Networks were more than offset by the lacklustre performance of other positions, such as Amazon (as increased expenses held back profitability), and social-media names like Twitter and LinkedIn, as investors questioned whether these companies could keep expanding revenues, as signs of slowing user growth emerged. Market exposure was fairly stable during the first half of 2014, averaging 95%.

Vitruvius - Japanese Equity

Vitruvius - Japanese Equity portfolio was down 4.9% in the JPY class (-5.1% in the EUR class) in the first half of 2014. Over the same period the Nikkei 225 and the Topix indices lost 6.9% and 3.1% respectively. Since its inception in October 1999 Vitruvius - Japanese Equity portfolio has gained 34.0% (JPY class), which compares with declines of 15.5% and 19.3% for the Nikkei 225 and the Topix indices, respectively. In the first semester of 2014, the negative result was mainly generated in financials where the portfolio has a significant allocation. Banks were the largest detractors with losses concentrated in top positions Sumitomo Mitsui, Mitsubishi UFJ and Mizuho Financial. Real estate companies including Tokyo Tatemono and Tokyu Fudosan were also costly along with some smaller positions in home builders. A significant underweight in consumer non-cyclical stocks, which were the largest positive contributors in the index, was also unhelpful. Trading companies were profitable but lagged the sector index as Itochu rose while Marubeni was flat. Stock picking in travel agent HIS, electronics company NEC Corp and some exposure to auto manufacturers and auto parts makers such as NGK Spark Plug had a positive impact. Market exposure was above 95% for most of the period and at around 97% on average. Portfolio turnover was very limited, both at a sector and at a single name level.

Vitruvius - Swiss Equity

Vitruvius – Swiss Equity portfolio returned +7.6% in the CHF class for the first half of the year (+7.7% in the EUR class), while the Swiss Performance Index was up 7.9% in CHF. Since its inception in June 2001, Vitruvius - Swiss Equity portfolio was up 34.5% in the CHF class which compares with a rise of 68.9% in CHF for the Swiss Performance Index over the same period.

Vitruvius - US Equity

Vitruvius - US Equity portfolio was up 7.2% in the USD class (+7.2% in the EUR class) for the first half of 2014, while the S&P500 Index gained 6.1%. Since its inception in November 1999, Vitruvius – US Equity portfolio has risen 78.5% in USD (+73.0% in the EUR class) against an increase of 41.1% for the S&P500 Index over the same period. The portfolio underperformed during the first four months of the year (-1.0% vs. S&P500 +1.9%), but recovered with good returns in May (+3.8% vs. S&P500 +2.1%) and June (+4.4% vs. 1.9%). Good gains were registered in automotive related stocks where noteworthy contributors were Visteon, Lithia Motors, Asbury Automotive and Allison Transmission, thanks to an improving auto market combined with strong growth in parts & servicing. Elsewhere, the industrial production resurgence theme, representing approx. 25% of the portfolio over the first half of the year, was also profitable, mainly thanks to Constellium, an aluminium producer, and Canadian Pacific Railway. Conversely, positions within the "acquirers" theme (companies with high quality

Report on activities of the Board of Directors (continued)

management teams taking advantage of cheap borrowing costs to make accretive transactions), representing approx. 20% of the portfolio, have been unsuccessful so far this year, with Jarden and Liberty Global lagging the most. Media content owners (approx. 15-20% of the portfolio) have also been unhelpful so far this year, with Viacom and 21st Century Fox holding back the overall performance somewhat. The portfolio remained almost fully invested throughout the first half of the year, with market exposure averaging 96%.

As of 30th June 2014 total assets under management amounted to EUR 904m, compared with EUR 944m at the end of 2013.

Luxembourg, 5th August 2014

The Board of Directors

Note: The information in this report represents historical data and is not an indication of future results.

Notes to the financial statements

as at 30th June 2014

Note 1 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the Company are established in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment.

b) Investments

The value of all securities which are listed on an official stock exchange or traded on any other regulated market is determined on the basis of the last available price on the principal market on which such securities are traded, as provided by a pricing service approved by the Board of Directors.

If such prices are not representative of their fair value, such securities as well as any of the portfolio securities which are not so listed and all other investments, including permitted financial futures contracts, options and OTC derivatives, will be valued on the reasonably foreseeable sales prices determined prudently and in good faith.

Based on the decisions taken by the Board of Directors or its delegates the following thinly traded or illiquid securities have been evaluated as follows:

- Moulin Global Eyecare Hgs Ltd in Vitruvius Emerging Markets Equity at a price of HKD 0 per share.
- Real Gold Mining Ltd in Vitruvius Emerging Markets Equity at a price of HKD 0 per share,
- RFC 2012 Plc in Vitruvius European Equity at a price of GBP 0 per share.

c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by each portfolio that are denominated in currencies other than the reference currency of the portfolio is converted into this currency at the exchange rate prevailing on the date of purchase.

d) Net realised gain/(loss) on sales of securities

The realised gains and losses on sales of securities are calculated on the basis of the average acquisition cost.

e) Investment income

Dividend income is recorded at the ex-date, net of any withholding tax.

Interest income accrued and payable are recorded, net of any withholding tax.

f) Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contracts. Unrealised gains and losses are recorded in the statement of net assets. Net variation of unrealised gains and losses and net realised gains and losses are recorded in the statement of operations and other changes in net assets.

g) Valuation of futures contracts

Futures contracts are posted off-balance sheet and valued at the last settlement or close price on the stock exchanges or regulated markets. Unrealised gains and losses are recorded in the statement of net assets. Net variation of unrealised gains and losses and net realised gains and losses are recorded in the statement of operations and other changes in net assets.

Notes to the financial statements (continued)

as at 30th June 2014

h) Valuation of option contracts

Premiums paid on the purchase of options and premiums received on short options are recorded under the caption "Liquid assets at brokers" in the statement of net assets and are presented as cost in the statement of investments and other net assets. Option contracts outstanding at the date of the report are valued at the last settlement or close price on the stock exchanges or regulated markets. Net variation of unrealised gains and losses and net realised gains and losses are recorded in the statement of operations and other changes in net assets.

i) Valuation of swaps contracts

Swap agreements are valued on the basis of the underlying securities or indices including any costs associated therewith and on the basis of valuations provided by market professionals that deal in such instruments on a regular basis. Unrealised gains and losses are recorded in the statement of net assets. Net variation of unrealised gains and losses and net realised gains and losses are recorded in the statement of operations and other changes in net assets.

j) Dividend policy

The Company does not intend to pay dividends on a regular basis. Income and capital gains generated by the portfolios are capitalised.

k) Formation expenses

The costs and expenses incurred in connection with the formation of the Company and in connection with the launching of new portfolios have been amortised over a period of 5 years.

I) Transaction fees

Transaction costs disclosed under the caption "Transaction fees" in the statement of operations and other changes in net assets are mainly composed of broker fees incurred by the Company relating to purchases or sales of securities, fees relating to liquidation of transactions paid to the custodian bank and transaction fees on financial and on derivatives instruments.

m) Receivable / Payable on treasury transactions

The caption "Receivable on treasury transactions" comprises maturities of time deposits, new loans or foreign exchange transactions not yet recorded under the caption "Cash at banks".

The caption "Payable on treasury transactions" comprises new time deposits, maturities of loans or foreign exchange transactions not yet recorded under the caption "Cash at banks".

At a portfolio level, "Receivable and payable on treasury transactions" are disclosed net in the statement of net assets.

n) Conversion of foreign currencies

Cash at banks, other net assets and liabilities and the market value of the securities in portfolios expressed in currencies other than the currency of the portfolio are converted into this currency at the exchange rate prevailing on the date of the report. Income and expenses expressed in currencies other than the currency of the portfolio are converted into this currency at the exchange rate prevailing on the date of the transaction. Exchange gains and losses are recorded in the statement of operations and other changes in net assets.

Notes to the financial statements (continued)

as at 30th June 2014

o) Combined financial statements

The combined financial statements of the Company are expressed in EUR and are equal to the sum of the corresponding captions in the financial statements of each portfolio converted into this currency at the exchange rates prevailing at the date of the report.

At the date of the report, the exchange rates used were the following:

1	EUR	=	1.2138239	CHF	Swiss Franc
			138.6865462	JPY	Japanese Yen
			1.3690000	USD	US Dollar

Note 2 - Investment management fee

For each portfolio, the Investment Manager is entitled to receive an investment management fee as follows:

- for Class B shares equal to maximum 2.50%
- for Class BI shares equal to maximum 2.00%

per annum of the monthly average net asset value of each portfolio, payable monthly in arrears within 7 days from the last valuation day of each month.

The effective management fee rates per annum amount to:

- Vitruvius - Asian Equity: - Vitruvius - Asian Equity: - Vitruvius - Emerging Markets Equity: - Vitruvius - Emerging Markets Equity: - Vitruvius - European Equity: - Vitruvius - European Equity: - Vitruvius - Greater China Equity: - Vitruvius - Greater China Equity: - Vitruvius - Growth Opportunities: - Vitruvius - Growth Opportunities: - Vitruvius - Japanese Equity: - Vitruvius - Japanese Equity: - Vitruvius - Swiss Equity: - Vitruvius - Swiss Equity:	Class B Class B	2.50% 2.00% 2.30% 1.80% 2.10% 1.60% 2.50% 1.60% 1.10% 2.20% 1.70% 1.85% 1.35%
- Vitruvius - Swiss Equity: - Vitruvius - US Equity:	Class Bi	2.50%
- Vitruvius - US Equity:	Class BI	2.00%

Note 3 - Custodian fees

KBL EUROPEAN PRIVATE BANKERS S.A. has been appointed as the Company's Custodian Bank. The fees and charges of KBL EUROPEAN PRIVATE BANKERS S.A. calculated with reference to the Net Assets and payable monthly are basically borne by the portfolios and are conform to common practice in Luxembourg.

Note 4 - Administration costs

In this capacity as Central Administration Agent, KREDIETRUST LUXEMBOURG S.A. has been appointed as Administrative, Domiciliary, Registrar and Transfer Agent.

Notes to the financial statements (continued) as at 30th June 2014

The fees and charges of KREDIETRUST LUXEMBOURG S.A. calculated with reference to the Net Assets and payable monthly are basically borne by the porfolios and are conform to common practice in Luxembourg.

Note 5 - Swing Pricing Adjustment

A portfolio may suffer dilution of the net asset value per share due to investors buying or selling shares in a portfolio at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to enhance the protection of existing shareholders, a policy has been adopted to allow price adjustments as part of the regular daily valuation process to mitigate the impact of dealing and other costs on occasions when these are deemed to be significant.

In order to achieve this, a swing pricing mechanism is adopted to protect the interests of shareholders of each portfolio. If on any valuation day, the aggregate net transactions in shares of a portfolio exceed a predetermined threshold, as determined and reviewed for each portfolio on a periodic basis by the Board of Directors, the net asset value per share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively. The threshold is set by the Board of Directors taking into account factors such as the prevailing market conditions, the estimated dilution costs and the size of the portfolios, the application of which will be triggered mechanically and on a consistent basis. The adjustment will be upwards when the net aggregate transactions result in an increase of the number of shares.

The adjusted asset value is applicable to all transactions on a given valuation day. The swing pricing mechanism may be applied across all portfolios. The extent of the price adjustment will be set by the Board of Directors to reflect dealing and other costs. Such adjustment may vary for the various portfolios and will not exceed 1% of the original net asset value per share. As such price adjustments will be in response to significant cash flows rather than normal volumes; it is not possible to accurately predict whether a price adjustment will occur at any future point in time. Consequently it is also not possible to accurately predict how frequently such price adjustments will need to be made.

The expenses of a portfolio are calculated on the basis of the net asset value of the relevant portfolio and are not impacted by the swing pricing adjustment.

By way of a circular resolution dated 26th January 2012, the Board of Directors decided, with effect on 1st February 2012, to apply the swing pricing methodology, with a 2% threshold and 0.25% swing factor.

At the date of the report, no Swing Pricing was applied to the net asset value of the portfolios of the Company.

Note 6 - Subscription duty ("taxe d'abonnement")

The Company is liable in Luxembourg to a subscription duty of 0.05% per annum of its net assets, payable quarterly on the basis of the value of the net assets of the portfolios at the end of each quarter.

The subscription duty is reduced to 0.01% per annum for share classes restricted to institutional investors.

Pursuant to Article 175 (a) of the amended law of 17th December 2010 the net assets invested in undertakings for collective investment already subject to the "taxe d'abonnement" are exempt from this tax.

Notes to the financial statements (continued)

as at 30th June 2014

Note 7 - Subscription and redemption of shares

Shares are offered at a subscription price which is equal to the net asset value per share of the relevant class of shares within the relevant portfolio on each valuation day. With respect to Class B shares of all portfolios, subscriptions are subject to a sales charge of up to 3%, which revert to the relevant distributor through which the initial purchase was made.

With respect to Class BI shares of all portfolios subscriptions are not subject to any sales charges.

Shares may be redeemed at the net asset value per share of the relevant class of shares within the relevant portfolio on each valuation day. No redemption charge is applied.

Note 8 - Total Expense Ratio ("TER") and Portfolio Turnover Rate ("PTR")

The TER and the PTR disclosed under "Statistical information" of this report are calculated in accordance with the "Guidelines on the calculation and disclosure of the TER and PTR of collective investment schemes" issued by the Swiss Funds & Asset Management Association "SFAMA" (formerly Swiss Fund Association "SFA") on 16th May 2008.

The annual TER of Vitruvius - Emerging Markets Equity, Vitruvius - European Equity, Vitruvius - Greater China Equity, Vitruvius - Japanese Equity and Vitruvius - US Equity is calculated as follows:

- common cost and charges divided by average assets of portfolio
- increased by the annual rate of individual cost and charges per share class (investment management fee [see note 2] and subscription duty [see note 6]).

The annual TER of Vitruvius - Asian Equity, Vitruvius - Growth Opportunities , Vitruvius - Swiss Equity are calculated with charges divided by average assets of portfolio.

The TER and the PTR are calculated for the last 12 months preceding the date of this report.

Transaction fees are not taken into account in the calculation of the TER.

The PTR has been calculated according to the following formula (Total 1 - Total 2)/M*100

with Total 1 = Total securities transactions = X + Y

X = Securities purchases

Y = Securities sales

Total 2 = Total subscriptions and redemptions = S + T

S = subscriptions

T = redemptions

S + T: subscriptions and redemptions are netted per NAV calculation day.

M = average net assets

Note 9 - Forward foreign exchange contracts

When Class B and Class BI shares are offered by a portfolio, they are offered in the reference currency of the relevant portfolio and in EUR, GBP, USD and SGD, if the reference currency of such portfolio is different from these currencies.

When EUR, GBP, USD or SGD denominated shares are offered in portfolios whose reference currency is different from these currencies, these shares are hedged against the foreign exchange risk.

Notes to the financial statements (continued) as at 30th June 2014 $\,$
