

## Key Information Document

### Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

**Product Name:** VP Bank Short Term Fund USD - B

**PRIIP Manufacturer:** VP Fund Solutions (Liechtenstein) AG, 9490 Vaduz, Liechtenstein

**ISIN:** LI0004874231

**Website:** [www.vpfundsolutions.com](http://www.vpfundsolutions.com)

**Telephone:** Call for more information +423 235 67 67

**Competent Authority:** Finanzmarktaufsicht (FMA) is responsible for supervising VP Fund Solutions (Liechtenstein) AG in relation to this Key Information Document

**Date:** 24. May 2023

**Warning:** *You are about to purchase a product that is not simple and may be difficult to understand.*

### What is this product?

**Type:** Undertaking for collective investment in transferable securities (UCITS) organised as a Unit Trust / Unit Investment Trust (UIT)

**Term:**

Due date: none

Unilateral termination by PRIIP manufacturer possible: yes

Automatic termination of the PRIIPS: no

**Objectives:** The sub-funds aim for returns better than the average short-term money-market interest rates, whilst paying particular attention to security, stability, diversification and liquidity. The sub-funds therefore invest in money-market deposits and accounts and short-maturity, liquid government and corporate bonds rated at least BBB- by Standard & Poor's or which have an equivalent credit rating. The sub-funds are broadly diversified in terms of issuers, sectors and countries. Each position is valued daily at market prices (mark to market). Investments in foreign currencies are generally hedged against the sub-fund currency in order to avoid currency risks.

**Intended retail investor:** In the member state of origin, the product is intended for professional and private investors with a medium-term investment horizon, basic experience and who are able to bear a limited financial loss. The product may be used for capital appreciation.

### What are the risks and what could I get in return?

**Risk Indicator:**

Lower risk

Higher risk

The risk indicator assumes you keep the product until 4 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

This product does not include any protection from future market performance so you could lose some or all of your investment.

### Performance-Scenarios:

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of unfavorable scenario occurred for an investment between 22.03.2019 - 24.03.2020 (if you exit after 1 year), 15.09.2021 - 22.05.2023 (if you exit after 4 years).

This type of moderate scenario occurred for an investment between 31.12.2015 - 03.01.2017 (if you exit after 1 year), 27.03.2015 - 27.03.2019 (if you exit after 4 years).

This type of favorable scenario occurred for an investment between 24.03.2020 - 24.03.2021 (if you exit after 1 year), 26.08.2016 - 28.08.2020 (if you exit after 4 years).

Recommended holding period: 4 years Example Investment: 10'000 USD		If you exit after 1 year	If you exit after 4 years

### What happens if VP Fund Solutions (Liechtenstein) AG is unable to pay out?

Should the manufacturer, VP Fund Solutions (Liechtenstein) AG, or the custodian default on their obligations, the product is not included in the insolvent estate, and may be transferred or liquidated with the consent of the competent supervisory authority.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10'000 USD Investment.

	If you exit after 1 year	If you exit after 4 years
Total costs	163 USD	370 USD
Annual cost impact (*)	1.6 %	0.9 %

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.0 % before costs and 1.1 % after costs.
