## What is this product?

### Type:

The Fund is a sub-fund of Waverton Investment Funds plc, an open-ended investment company with variable capital organised under the laws of Ireland as a public limited company pursuant to the Companies Act and authorised by the Central Bank of Ireland as a UCITS pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011.

### Term:

Open Ended Fund.

### Objectives:

The Fund aims to achieve growth on your investment and income by investing in the shares of Asia-Pacific companies (excluding Japanese companies).

By Asia-Pacific companies, we mean companies established in the Asia-Pacific region or carrying on business predominantly in the Asia-Pacific region.

The Fund may invest its assets in ordinary shares and preferred shares. A preferred share typically pays dividends at a specified rate and has preference over ordinary shares in the payment of dividends and the liquidation of assets.

The Fund may invest up to 25% of its assets in bonds convertible into shares.

The Fund may invest up to 10% of its assets in other funds, of which up to 5% of its assets may be invested in funds investing in shares of Asia-Pacific companies.

At times, the Fund may also invest in cash and cash-like instruments.

The Fund may use instruments whose value is determined by changes in the value of the underlying assets they represent (derivatives). The Fund may do so in order to manage the Fund more efficiently (e.g., reducing risks or costs or generating additional growth or income).

## What are the risks and what could I get in return?

### Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

For more information about the investment policy, see "Investment Objectives and Policies of the Funds" in the Fund's prospectus available at [www.waverton.co.uk](http://www.waverton.co.uk).

You may sell your shares on any working day (generally, a day on which banks in Dublin and London are open).

The Fund declares dividends semi-annually (generally, on 30 April and 31 October each year). Unless you request cash payment, your dividends will be paid in the form of additional shares in the Fund.

The Fund is actively managed and uses the MSCI AC Asia ex Japan Index (in USD) (the "Benchmark") for performance comparison purposes only. The fund does not seek to track its benchmark and so has discretion as to the investments it may make. While a proportion of the Fund may be components of, and have similar weightings to, the Benchmark, the Investment Manager may or may not invest in assets which are not included in the Benchmark or with weightings different to that of the Benchmark. There can be no guarantee that the Fund will match or exceed the performance of the Benchmark.

The currency of the class is US Dollars.

The price of shares is published on each working day and is available online, along with other practical information about the Fund, at [www.waverton.co.uk](http://www.waverton.co.uk).

The depositary of the Fund is CACEIS Investor Services Bank S.A., Dublin Branch.

### Intended retail investor:

The Fund is suitable for investors seeking capital growth and an income over a 5 year period with a moderate level of volatility.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the annual report and prospectus in respect of the Fund available at the administrator, CACEIS Investor Services Ireland Limited, 4th Floor, One George's Quay Plaza, George's Quay, Dublin 2, Ireland and at [www.waverton.co.uk](http://www.waverton.co.uk).

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Bridge Fund Management Limited is unable to pay out?

You will not face financial loss should Bridge Fund Management Limited default on their obligation. In the event of insolvency of the depositary, CACEIS Investor Services Bank S.A., Dublin Branch, the Fund's financial instruments are protected and are not subject to a claim by the depositary's liquidator. In the event that there is any loss, there is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

For the protection of investors the fund's assets are held by an independent depositary, so the fund's ability to pay out would not be affected by the insolvency of Bridge Fund Management Limited. If the fund is terminated or wound up, the assets will be liquidated, and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. There is no compensation scheme protecting you from this scenario.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

Investment: USD 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	139 USD	810 USD
<b>Annual cost impact (*)</b>	1.4%	1.4%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.4% before costs and 4.0% after costs.

**Composition of Costs**

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 USD
Exit costs	We do not charge an exit fee.	0 USD
