Unaudited Condensed Interim Financial Report for the
Six Months to 30 June 2022

Directors' Report	1-3
Condensed Statement of Profit or Loss and Other Comprehensive Income	4
Condensed Statement of Financial Position	5
Condensed Statement of Cash Flows	6
Condensed Statement of Changes in Equity	7
Notes to the Condensed Interim Financial Statements	8-16

The directors of WisdomTree Foreign Exchange Limited (“FXL” or the “Company”), submit herewith the unaudited interim financial report and interim financial statements of the Company for the period ended 30 June 2022.

Directors

The names and particulars of the directors of the Company during or since the end of the financial period are:

Stuart Bell
 Christopher Foulds
 Steven Ross
 Peter Ziemba

Directors' Interests

No director has an interest in the Shares of the Company as at the date of this report.

Principal Activities

During the period there were no significant changes in the nature of the Company's activities.

Review of Operations

As at 30 June 2022, the Company had the following number of classes, in aggregate, of Currency Securities in issue and admitted to trading on the following exchanges:

	London Stock Exchange	Borsa Italiana	Deutsche Börse	NYSE- Euronext Paris
USD Currency Securities	16	-	2	-
EUR Currency Securities	-	26	11	6
GBP Currency Securities	16	-	-	-
Total Currency Securities	32	26	13	6

As at 30 June 2022, the fair value of assets under management amounted to USD 331.8 million (31 December 2021: USD 330.2 million). The Company recognises its financial assets (“Currency Transactions”) and financial liabilities (“Currency Securities”) at fair value in the Condensed Statement of Financial Position.

The Company has entered into contractual obligations to issue and redeem Currency Securities at set prices on each trading day, and these prices are based on agreed formulae published in the Prospectus and are equal to the published NAV of each class of Currency Security.

IFRS 13 requires the Company to identify the principal market and to utilise the available price within that principal market. The directors consider the stock exchanges where the Currency Securities are listed to be the principal market and as a result the fair value of the Currency Securities is the on-exchange price as quoted on the stock exchanges demonstrating active trading with the highest trading volume on each day that the price is obtained. As a result of the difference in valuation between Currency Transactions and Currency Securities there is a mis-match between values recognised, and the results of the Company reflect a gain or loss on the difference between the fair value of the Currency Transactions and the price of Currency Securities.

The gain or loss on Currency Securities and the Currency Transactions is recognised through profit or loss in line with the Company's accounting policy.

Review of Operations (continued)

During the period, the Company generated income from management fees as follows:

	30 June 2022	30 June 2021
	USD	USD
Management Fees	1,086,763	1,340,485
Total Fee Income	1,086,763	1,340,485

Non-GAAP Performance Measures

Under the terms of the service agreement with WisdomTree Management (Jersey) Limited (“ManJer or the “Manager”), the Company accrued expenses equal to the management fee and creation and redemption fees, which, after taking into account other operating income and expenses, resulted in a result before fair value movements for the period of USD Nil (2021: USD Nil).

As the difference in the valuation of Currency Transactions (held to support the Currency Securities) and Currency Securities would be reversed on a subsequent redemption of the Currency Securities and closure of the corresponding Currency Transactions, the Company presents an adjusted Condensed Statement of Profit or Loss and Other Comprehensive Income and an adjusted Condensed Statement of Changes in Equity in note 8 of the interim financial statements.

Coronavirus disease (COVID-19)

The COVID-19 pandemic continues to persist and the ultimate duration of the pandemic and its short-term and long-term impact on the global economy is unknown. National governments and supranational organisations in multiple states continue taking steps designed to protect their populations from COVID-19, including requiring or encouraging home working, the cancellation of sporting, cultural and other events and restricting or discouraging gatherings of people. COVID-19 has created market turmoil and increased market volatility generally. Mutations in the virus, a setback in vaccine distribution and negative global economic consequences arising from the pandemic, amongst other factors, could have a future adverse impact on the global financial markets. The steps outlined above, and public sentiment, may affect both the volatility and prices of Currency Transactions and hence the prices of the Currency Securities, and such effects may be significant and may be long-term in nature.

The board of directors (the “Board”) is closely monitoring the advice and developments relating to the spread of COVID-19, which is fluid and rapidly changing. The WisdomTree group has, and continues to implement measures to maintain the ongoing safety and well-being of employees, whilst continuing to operate business as usual.

Ukraine Invasion

On 24 February 2022, Russia engaged in military actions in the sovereign territory of Ukraine. The Board is closely monitoring developments that may impact financial markets including sanctions, actions by governments and developments of the crisis. Whilst there are no Currency Transactions (and therefore no Currency Securities) with an exposure to Russian Roubles, Belarusian Rubles or Ukrainian Hryvnia, the Board will further assess the impact on the Company’s portfolio operations and valuation and will take any potential actions needed, as facts and circumstances are subject to change and may be specific to investment strategies and jurisdictions.

Future Developments

The Board is not aware of any developments that might have a significant effect on the operations of the Company in subsequent financial periods not already disclosed in this report or the attached interim financial statements.

Directors' Remuneration

No director has a service contract with the Company. The directors of the Company who are employees within the WisdomTree Investments, Inc group do not receive separate remuneration in their capacity as directors of the Company. R&H Fund Services (Jersey) Limited ("R&H" or the "Administrator") receives a fee in respect of the directors of the Company who are employees of R&H.

The following directors' fees have been paid by ManJer on behalf of the Company for the period:

	30 June 2022 GBP	30 June 2021 GBP
Stuart Bell	Nil	Nil
Christopher Foulds	4,000	4,000
Steven Ross	4,000	4,000
Peter Ziemba	Nil	Nil

Going Concern

The nature of the Company's business dictates that the outstanding Currency Securities may be redeemed at any time by Authorised Participants and in certain circumstances by individual holders and also, in certain circumstances, may be compulsorily redeemed by the Company. As the redemption of Currency Securities will always coincide with the closing of an equal amount of Currency Transactions, liquidity risk is mitigated through this process which is considered to minimize exposure to liquidity risk. All other expenses of the Company are met by ManJer. The directors closely monitor the financial position and performance of ManJer, its assets under management, and therefore its related revenue streams, in respect of fulfilling the obligations under the services agreement. The directors consider the operations of the Company to be ongoing, with a reasonable expectation that the Company has adequate resources to continue in operational existence for a period of 12 months from the date of these interim financial statements, and accordingly these financial statements have been prepared on the going concern basis.

Directors' Statement

With regard to Directive 2004/109/EC, amended by Directive 2013/50/EU (collectively the Transparency Directive), the Central Bank (Investment Market Conduct) Rules of the Central Bank of Ireland and the Disclosure Guidance and Transparency Rules of the Financial Conduct Authority, the directors confirm that to the best of their knowledge that:

- the interim financial statements for the period ended 30 June 2022 give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company as required by law and in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board; and
- the Directors' Report gives a fair view of the development and performance of the Company's business, including financial position and the important events that have occurred during the period and their impact on these interim financial statements.

On behalf of the directors

Cash Flows from Investing Activities represent amounts linked to Currency Transactions entered into with a Currency Transaction Counterparty, and which are used to enter into USD, GBP or EUR denominated daily repurchase transactions with the Currency Transaction Counterparty in exchange for eligible collateral on the terms described in the Company's Prospectus (collectively the "Underlying Assets"). On each day the Currency Transaction Counterparty is required to pay back the USD, GBP and EUR amounts in exchange for the eligible collateral held the previous day, which allows the Company to enter into new daily repurchase transactions in exchange for eligible collateral required on that day, however in accordance with the terms of a supplemental agreement to the Collateral Administration Master Agreement those new daily repurchase transactions can be paired with maturing deals on the previous daily repurchase transactions meaning that the net amounts (in each of USD, GBP and EUR) are transferred each day. These cash flows are reported on a net basis in accordance with IAS 7.

The Company has entered into a service agreement with WisdomTree Management Jersey Limited ("ManJer" or the "Manager"), whereby ManJer is responsible for supplying or procuring the supply of all management and administration services required by the Company (including marketing) as well as the payment of costs relating to the listing and issue of Currency Securities. In return for these services, the Company has an obligation to remunerate ManJer with an amount equal to the aggregate of the management fee and the creation and redemption fees, less any expenses directly incurred (the "ManJer Fee"). ManJer receives creation and redemption fees directly from the holders of Currency Securities who have entered into an authorised participant agreement with the Company ("Authorised Participants"), and accordingly, there are no related cash flows through the Company in respect of creation and redemption fees.

1 Accounting Policies

The main accounting policies of the Company are described below.

Basis of Preparation

The interim financial statements for the six months ended 30 June 2022 have been prepared in accordance with IAS 34 “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB. The interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company’s annual financial statements for the year ended 31 December 2021. Except as described below under *Changes in Accounting Standards* the accounting policies adopted are consistent with those of the annual financial statements for the year ended 31 December 2021. The changes in accounting policies are also expected to be reflected in the financial statements for the year ended 31 December 2022.

The presentation of interim financial statements in conformity with International Financial Reporting Standards (“IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company’s accounting policies.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The key accounting judgement required to prepare these interim financial statements is in respect of the presentation of non-statutory and non-GAAP adjustments to the Condensed Statement of Profit or Loss and Other Comprehensive Income and the Condensed Statement of Changes in Equity, as disclosed in note 8.

This half yearly report has not been audited or reviewed by the Company’s auditors.

Changes in Accounting Standards

On 1 January 2022 the Company adopted all applicable annual improvements to IFRSs and have assessed that the adoption of these revised and amended accounting standards has not resulted in any changes to the accounting policies and disclosures within these interim financial statements.

5 Fair Value Hierarchy

The levels in the hierarchy are defined as follows:

- Level 1 fair value based on quoted prices in active markets for identical assets.
- Level 2 fair values based on valuation techniques using observable inputs other than quoted prices.
- Level 3 fair values based on valuation techniques using inputs that are not based on observable market data.

Categorisation within the hierarchy is determined on the basis of the lowest level input that is significant to the fair value measurement of each relevant asset/liability.

5 Fair Value Hierarchy (continued)

The Company is required to utilise the available on-market price as the Currency Securities are quoted and traded on the open market. Where the market on which the Currency Securities prices are quoted is determined to be active at the relevant reporting date, the Currency Securities are classified as Level 1 financial liabilities. Where the market on which the Currency Securities prices are quoted is determined to be inactive at the relevant reporting date, the Currency Securities are classified as level 2 financial liabilities. The Company values the Level 2 Currency Securities using the unadjusted market price available at each reporting date. This is considered to most appropriately reflect the price at which transactions would occur as at the reporting date.

The Company's rights in respect of Currency Transactions relate to its contractual obligations to issue and redeem Currency Securities at set prices on each trading day. These prices are based on an agreed formula (set out in the Prospectus) and are equal to the published NAVs of each class of Currency Security. Therefore, Currency Transactions are classified as level 2 financial assets, as the Company's asset is calculated using third party pricing sources supported by observable, verifiable inputs.

The categorisation of the Company's assets and (liabilities) are as shown below:

	As At	
	30 June 2022 Unaudited USD	31 December 2021 Audited USD
Level 1		
Currency Securities	(315,607,470)	(320,222,855)
Level 2		
Currency Securities	(17,059,426)	(7,634,927)
Currency Transactions (Daily Payment Amount)	(587,229)	2,086,683
	(17,646,655)	(5,548,244)

The Currency Securities and the Daily Payment Amount component of Currency Transactions are recognised at fair value through profit or loss upon initial recognition and revalued to fair value in line with the Company's accounting policy. There are no assets or liabilities classified in level 3.

The Daily Repurchase Transactions component of Currency Transactions totalling USD 331,188,014 (31 December 2021: USD 326,348,735) is recognised at amortised cost, in line with the Company's accounting policy. The fair value of the Daily Repurchase Transactions is considered to be approximately equal to its carrying value due to the daily maturity. The collateral consists of level 1 financial instruments.

Transfers between levels would be recognised if there was a change in circumstances that prevented public information in respect of Level 1 inputs from being available. Any such transfers would be recognised on the date of the change in circumstances that cause the transfer. Transfers between levels may also be recognised if the primary market on which the Currency Securities prices are quoted was determined to be inactive at the relevant reporting date. The Company considers both the last trade date and trading volumes during the 5 trading days leading up to each reporting date to determine if the market for a particular Currency Security is active. Transfers as a result of the analysis of the activity levels of the market are identified and recognised at each reporting date.

There were no transfers of reclassifications between Level 1 and Level 2 for any of the assets during the period or at the reporting date. As at 30 June 2022, Currency Securities with a fair value of USD 14,755,999 were transferred from Level 1 to Level 2 (31 December 2021: USD 6,548,548). Currency Securities with a fair value (as at 1 January 2022) of USD 4,534,929 were transferred from Level 2 to Level 1 (2021: USD 572,869).

6 Related Party Disclosures

Entities and individuals which have significant influence over the Company, either through ownership or by virtue of being a director of the Company, are considered to be related parties. In addition, entities with common ownership to the Company and entities with common directors are also considered to be related parties.

7 Events Occurring After the Reporting Period

There have been no significant events that have occurred since the end of the reporting period up to the date of signing the interim financial statements which would impact on the financial position of the Company disclosed in the Condensed Statement of Financial Position as at 30 June 2022 or on the results and cash flows of the Company for the period ended on that date.

8 Non-GAAP and Non-Statutory Information

As a result of the mis-match in the accounting valuation of Currency Transactions (held to support the Currency Securities) and Currency Securities (as disclosed in notes 3 and 4) the profits and losses and comprehensive income of the Company presented in the Condensed Statement of Profit or Loss and Other Comprehensive Income reflect gains and losses which represent the movement in the cumulative difference between the value of the Currency Transactions and the price of Currency Securities. The Condensed Statement of Changes in Equity also reflects the fair value movements on both the Currency Transactions (held to support the Currency Securities) and the Currency Securities.

These gains or losses on the difference between the value of the Currency Transactions (held to support the Currency Securities) and the price of Currency Securities would be reversed on a subsequent redemption of the Currency Securities and cancellation of the corresponding Currency Transactions. Furthermore, each class of Currency Security is issued under limited recourse arrangements whereby the holders have recourse only to the relevant Currency Transactions (held to support the Currency Securities) and not to the Currency Transactions of any other class of Currency Security or to the Company. As a result, the Company does not make gains from trading in the underlying Currency Transactions (held to support the Currency Securities) and, from a commercial perspective (with the exception of the impact of Management Fees) gains and losses in respect of Currency Transactions (held to support the Currency Securities) will always be offset by a corresponding loss or gain on the Currency Securities and the Company does not retain any net gains or losses.

The mismatched accounting values are as shown below:

	Period Ended 30 June	
	2022	2021
	Unaudited	Unaudited
	USD	USD
Change in Contractual and Fair Value of Currency Transactions	(67,573,714)	(27,871,638)
Change in Fair Value of Currency Securities	64,393,694	29,236,441
	(3,180,020)	1,364,803

To reflect the commercial results, the Company has presented below a non-GAAP and non-Statutory Condensed Statement of Profit or Loss and Other Comprehensive Income and Condensed Statement of Changes in Equity for the period which reflect an Adjustment from Market Value to Contractual Value (as set out in the Prospectus) of Currency Securities, together with those gains or losses being transferred to a separate reserve which is deemed non-distributable.
