

**Key investor information for investors in Switzerland**  
 This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Xtrackers II EUR Overnight Rate Swap UCITS ETF

**Share class: 1D, ISIN: LU0335044896, Security code: DBX0A2, Currency: EUR**

a sub-fund of Xtrackers II. The management company is DWS Investment S.A., a member of the DWS Group.

### Objectives and investment policy

The fund is passively managed. The aim is for your investment to reflect the performance of the DEUTSCHE BANK EURO OVERNIGHT RATE Index® (Index). The Index reflects the performance of a deposit earning interest at the Euro short term rate (€STR), with the interest being re-invested in the deposit, daily, plus 8.5 basis points adjustment. To achieve the aim, the fund will

invest in transferable securities and enter into financial contracts (derivatives) with one or more swap counterparties relating to the transferable securities and the index, in order to obtain the return on the index. The currency of the fund is EUR. The fund may distribute up to four times per annum. You may request the redemption of shares generally on a daily basis.

### Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 1 because its share price generally hardly fluctuates at all and the likelihood of both losses and gains should therefore be relatively low. The following risks could be of particular significance for the fund: The fund does not invest directly in the components of the index and its returns will be dependent on the performance of the bonds and/or cash deposits and the performance of the derivatives used. DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. The fund will enter into a derivative with a counterparty. If the counterparty fails to make payments (for example, it becomes

insolvent) this may result in your investment suffering a loss. The fund may invest in bonds the value of which depends on the issuer being able to make its payments. There is always a risk that the issuer will fail to do so which may result in your investment suffering a loss. The financial contract (known as a derivative) used to gain exposure to the Index may be adjusted to reflect certain expenses in relation to taxes and/or buying, selling, borrowing, financing or custody costs associated with the counterparty's hedging position. These index replication costs may lead to your investment suffering losses. The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. The fund provides a notional exposure to interest rates, which may be volatile. Interest rates react to various economic, fiscal, monetary and political factors. This may result in your investment suffering a loss, up to a total loss. Your investment is dependent on the performance of the index less costs but your investment is not expected to match that performance precisely. The index may also be subject to disruption or adjustment events which may prevent its calculation or lead to adjustments to the rules of the index which may cause your investment to suffer losses.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

### Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

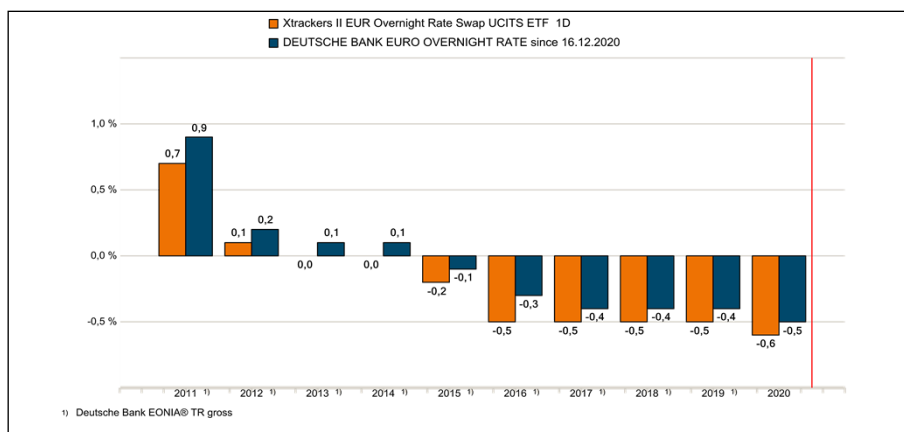

One-off charges taken before or after you invest	
<b>Entry charge</b>	None
<b>Exit charge</b>	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
<b>Ongoing charges</b>	0.10 %
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	None

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2020. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

### Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the 1D share class of Xtrackers II EUR Overnight Rate Swap UCITS ETF were deducted during the calculation. The 1D share class of Xtrackers II EUR Overnight Rate Swap UCITS ETF was launched in 2008.

As of 16 December 2020 the fund changed its investment objective to reflect the performance of the DEUTSCHE BANK EURO OVERNIGHT RATE Index®. The past performance shown from 2008 up to 2019 (inclusive), is that of the DEUTSCHE BANK EONIA

TOTAL RETURN EURO OVERNIGHT RATE Index®. 2020 shows a combined performance of both indices.
